Senate redistricting plan leaves Kalamazoo with no incumbent and gives Schuitmaker new district

KALAMAZOO — It appears Kalamazoo County would get a new state senator in 2014, while first-term state Sen. Tonya Schuitmaker, R-Antwerp Township, could run in her home turf without having to face an incumbent **if proposed redistricting adjustments become final**.

State Sen. Tonya Schuitmaker

Senate Republicans released their much-anticipated proposal to revise the map for the 38 districts of the state Senate earlier today.

Under the proposed boundaries, the 20th District that the Senator now represents would include only Kalamazoo County.

Schuitmaker lives in one of the two Van Buren County townships — Antwerp — now part of the current 20th District. The current district also includes Paw Paw Township.

Schuitmaker could run for the new 26th District that is in the revised map, facing no incumbent.

That district would encompass Van Buren and Allegan counties plus a sliver of southern Kent County.

Van Buren is now part of the 21st District represented by John Proos, who lives in St. Joseph. Allegan is currently part of the 24th District represented by Rick Jones, who lives in Grand Ledge.

Before her election to the Senate, Schuitmaker was a three-term state House member, representing the 80th district — all of Van Buren County, and Watson and Otsego townships and the city of Otsego in Allegan County.

The 43-year-old won her Senate seat last November in a race against Kalamazoo Mayor Bobby Hopewell.

Her original Democratic opponent in the high-profile race was Robert B. Jones, who died before Election Day.

"Every ten years re-districting is a Constitutional reality that like any other major legislative decision must go through the process which is subjected to change," Schuitmaker said in a statement today.

"The process will be transparent and subject to adequate public scrutiny. Issues like job creation, quality education and roads as well as elder abuse do not know Senate district boundaries and they are my focus right now," she said.

How is Allegan County directly impacted by the census count?

Published: Tuesday, March 01, 2011, 8:34 AM

By **Penasee Globe staff**

Editor's Note: This article was written and submitted by Allegan County Clerk Joyce Watts

The State of Michigan will lose a representative in Congress, because the state has lost population in the last decade.

This spring, states and county governments are charged with reviewing the population figures gathered and apportioning the representation based on the recent 2010 population count.

The apportionment of governmental representation also requires an adjustment to the State Senate, State Representative districts, and the number of County Commissioner districts and boundaries at the county level.

This is to ensure as much as possible that residents of the state have identical access to the individuals they elect at the federal, state and county level.

BUT, HOW DOES THIS PROCESS WORK?

Seats in the Congressional House of Representatives are allotted to states based on the state population as it compares to other states. Because of our population loss, the State of Michigan will go from 15 seats to 14 seats in Congress.

The new lines for congressional representation will be drawn at the state level by state legislators, who will oversee not only drawing the congressional lines, but also drawing the lines for the State House and Senate districts. Michigan's redistricting plans have routinely been challenged in the courts and often decided by the state Supreme Court.

County Commissioner districts are apportioned by the County Apportionment Committee, required by law to consist of the County Prosecuting Attorney, Clerk, Treasurer and the Chairpersons of the county Republican and Democratic parties.

Case 1:11-cv-01938-RJL-BMK-CKK Document 1-7 Filed 11/03/11 Page 4 of 129

This five-member panel will convene in late March, and voters can watch the roll out of final census information by logging on to the census website, **www.2010census.gov/2010census/data/**.

Further, the meeting schedule will be posted and the public is welcome to comment on if they want more county commissioners, fewer commissioners, or should the number of commissioners - set at 11 in 2001 - remain unchanged.

Rules for creating the districts include making a good faith effort to achieve districts of equal population and be contiguous, compact and as nearly square in shape as
practicable.

THE QUESTION IS, HOW MUCH REPRESENTATION DO WE WANT AND CAN WE AFFORD?

Also taken into account is the cost to local and county governments when municipalities are divided into separate precincts to achieve equal population. If the plan forces a township or city to create a new precinct, there are additional costs associated with the change.

Those costs include the purchase of approximately up to $7,000 in election equipment, the cost to staff yearly elections, increased costs to the local municipality for accuracy testing prior to the election, and the cost of containers to store the ballots after the election.

At the county level, adding additional precincts increases the annual election costs for programming, providing election supplies for the precinct, and an increase in the total number of printed ballots.

These added costs are paid by taxes collected by the local municipality and the county. Every additional dollar spent for supporting that additional precinct means one less dollar available to spend on fire, law enforcement services or road repair at the local level.

This process impacts all of us!

House Redistricting and Elections Committee to hold public hearings on redistricting issues

State Rep. Pete Lund, House Redistricting and Elections Committee chair, today announced public hearings on Michigan's redistricting process.

The first of a series of public hearings, intended to review Michigan's census results, the Federal Voting Rights Act, and Michigan's Constitutional and statutory standards for redistricting is scheduled for Tuesday, April 12, beginning at 9 a.m.

"Maintaining accurate representation for our state's changing population centers is an essential component of a functioning democracy," said Lund, R-Shelby Township. "This process will be fair and follow the law."

Michigan's redistricting process is governed by Michigan's constitution, Apol standards in Michigan statute, and federal law. Michigan law requires that the redistricting process be completed by Nov. 1.

(MORE)

The hearings will provide background and information on the overriding concepts in redistricting and will continue throughout the coming weeks. The April 12 hearing will focus on Michigan's 2010 Census results and issues associated with them.

"I look forward to these hearings and a fair, effective redistricting process for our state," Lund said.

House Redistricting and Elections Committee announces redistricting plan submission details

House Redistricting and Elections Committee chair, Pete Lund, R-Shelby Township, today announced details for those wishing to submit congressional or state legislative redistricting plans.

Plan submissions can be sent to the Clerk of the House of Representatives at, Office of the Clerk of the House of Representatives, Capitol Building, Room 70, P.O. Box 30014 Lansing, MI 48909-7514.

Plans should be submitted by May 23, 2011. A plan should include proposed districts for the entire state and should include the following, at minimum:

- A map depicting the statewide configuration of proposed districts and a detailed map depicting proposed districts in Southeast Michigan. Maps should be on 8-1/2" x 11" paper or, alternatively, 20 copies of each map should be submitted;
- The population of each proposed district;
- The maximum population deviation among proposed districts; and
- Other descriptive details that would be useful to the committee.

Plans will be reviewed by committee staff. Additional detailed maps may also be submitted. Plans may be submitted to the full committee at the discretion of committee members.

Lund announces release of redistricting plans and Redistricting Committee Hearing

House Redistricting and Elections Committee chair, Pete Lund, R-Shelby Township, today forecasted a timetable for Michigan's redistricting process that must be completed by November 1.

"We have held numerous open hearings over the past two months to ensure Michigan's redistricting plans would be completed fairly and in accordance to state and federal law," said Lund. "As we begin the consideration of specific plans, state and federal law will continue to guide our decisions."

Lund will submit maps to the Clerk of the House and Senate on June 17 in order to ensure fair consideration before a hearing on the Congressional plan. He joined House Speaker Jase Bolger, R-Marshall, in asking House Democrats to submit their maps on the same day.

After plans have been submitted, the House redistricting committee will meet on June 21 and 22, respectively, to discuss redistricting plans.

Congressional and Legislative Redistricting Reform

Summary

With the U.S. Census Bureau's release of the 2010 population counts, states are set to begin the process of redrawing electoral district boundaries. Voters elect members to the U.S. House of Representatives and to both chambers of the state legislature from districts. How voters are grouped into these districts therefore affects who the representatives are and what policies representatives implement.

As a fundamental part of our democracy, federal and state laws govern the redistricting process. The U.S. Constitution mandates equal representation among districts, and the Voting Rights Act of 1965 requires that states provide minority groups an equal opportunity to elect candidates of their choice. Most states have secondary guidelines to govern and constrain the redistricting process. The most common requirements are that districts adhere to political boundaries, preserve communities of interest, and be contiguous and compact.

Michigan's legislative redistricting laws have undergone a number of changes since adoption of the 1963 Michigan Constitution. Article IV, Sections 2 through 6, of the Constitution originally defined Michigan's legislative redistricting approach. However, in 1964, the U.S. Supreme Court found that standards used to create districts based on anything other than population were in violation of the "one man, one vote" provisions of the federal Constitution, and in 1982, the Michigan Supreme Court invalidated Michigan's redistricting provisions because one requirement violated the Equal Protection Clause of the U.S. Constitution and the other provisions were non-severable from the violating section. Although the Michigan Supreme Court prescribed criteria that a special master used to draft the redistricting plan after the 1980 census, it was not until 1996, when the state legislature passed Public Act (PA) 463, that Michigan again had guidelines for legislative redistricting. These requirements comprise provisions for a population variance of five percent above or below the ideal district size,[1] upholding precedents related to the Voting Rights Act, preserving political boundaries, contiguity, compactness, and single-member districts.

Because the state legislature, with gubernatorial approval, has the authority to change state statute but cannot change the state Constitution without a vote of the people, redistricting provisions outlined in statute do not bind the legislature. Case in point: PA 221 of 1999, the Congressional Redistricting Act, established guidelines for drawing Michigan's congressional districts. The guidelines comprised provisions for strict population equity, upholding the Voting Rights Act, preserving political boundaries, contiguity, compactness, single-member districts, and numbering districts. In 2002, a group of voters challenged the redistricting plan that the 2001 legislature passed, contending in part that the plan failed to comply with PA 221 of 1999. The Michigan Supreme Court, however, opined that PA 221 of 1999 is not binding beyond the 1999 legislature because, in essence, when the 2001 legislature approved the congressional redistricting plan, the statute they passed superseded the provisions of PA 221 of 1999. Thus, this opinion also puts PA 463 of 1996 in question.

Given how critical redistricting is to representative democracy, Michigan legislators should use this redistricting cycle to do more than redraw boundaries. Legislators should draft a constitutional amendment to reform the process and provide clear guidelines for future redistricting. The Citizens Research Council of Michigan recommends that the legislature introduce a constitutional amendment to amend Sections 2 through 6 of Article IV of the 1963 Michigan Constitution and enshrine in the constitution provisions to:

- Recreate a redistricting commission,
- Limit redistricting to once per decade,
- Describe the appropriate redistricting procedures and timeline,
- Increase transparency and public engagement,
- Protect electors' right to challenge redistricting plans,

[1] The total state population, typically per the decennial census, divided by the number of seats in a legislative body.

- Minimize population variance among districts,
- Ensure contiguous single-member districts,
- Create district boundaries that adhere to political boundaries, and
- Protect communities of interest.

To ensure that the process occurs in a way that minimizes bias and to ensure that districts have the preferred characteristics, it is necessary to amend Michigan's Constitution with valid and binding language. District boundaries determine from which voters a candidate must gain support, creating an incentive for a redistricting entity to try to bias districts to advantage one group over another—called gerrymandering. While it may be too difficult to isolate the effects of gerrymandering to measure them, most experts agree that gerrymandering distorts voters' choices and undermines the legitimacy of our democracy. These experts argue that a transparent redistricting process—outlined in a state's constitution, offering opportunities for public engagement and minimizing political control—can do much to deter gerrymandering and uphold the integrity of the political system.

Unless valid constitutional provisions are adopted, redistricting in Michigan will continue to occur in a legislatively-devised and legislatively-adjustable framework. This paper recommends that the legislature take advantage of this redistricting cycle to put in place constitutional standards to guide the redistricting process for future years.

Congressional and Legislative Redistricting Reform

Introduction

It has been 29 years since Michigan had constitutional redistricting guidelines. With Michigan having lost population for the first time since the U.S. government began the census and significant population shifts throughout the state redistricting will result in significant changes to the maps of Michigan's legislative and congressional districts. Michigan legislators should use this redistricting cycle to do more than redraw boundaries. Legislators should draft a constitutional amendment to reform the process and provide clear guidelines for future redistricting. This paper suggests a comprehensive policy to do just that, including provisions to recreate a redistricting commission; increase transparency and public engagement; and to minimize population variance, protect minorities, adhere to political boundaries, ensure contiguity, and protect communities of interest.

With the U.S. Census Bureau's release of the 2010 population counts, states are set to begin the process of redrawing electoral district boundaries. Voters elect members to the U.S. House of Representatives and to both chambers of the state legislature from districts. How voters are grouped into these districts affects the selection of representatives and the policies that ultimately are implemented.

As a fundamental part of our democracy, federal and state laws govern the redistricting process. The U.S. Constitution mandates equal representation among districts, and the Voting Rights Act of 1965 requires that states provide minority groups an equal opportunity to elect candidates of their choice. Most states have secondary guidelines to govern and constrain the redistricting process. The most common requirements are that districts adhere to political boundaries, preserve communities of interest, and be contiguous and compact.

Michigan's legislative redistricting laws have undergone a number of changes since adoption of the 1963 Michigan Constitution. Article IV, Sections 2 through 6, of the Constitution originally defined Michigan's legislative redistricting approach. However, in 1964, the U.S. Supreme Court found that standards used to create districts based on anything other than population were in violation of the "one man, one vote" provisions of the federal Constitution, and in 1982, the Michigan Supreme Court invalidated Michigan's redistricting provisions because one requirement violated the Equal Protection Clause of the U.S. Constitution and the other provisions were non-severable from the violating section. Although the Michigan Supreme Court prescribed criteria that a special master used to draft the redistricting plan after the 1980 census, it was not until 1996, when the state legislature passed Public Act (PA) 463, that Michigan again had guidelines for legislative redistricting. These requirements comprise provisions for a population variance of five percent above or below the ideal district size,[1] upholding precedents related to the Voting Rights Act, preserving political boundaries, contiguity, compactness, and single-member districts.

Because the state legislature, with gubernatorial approval, has the authority to change state statute but cannot change the state Constitution without a vote of the people, redistricting provisions outlined in statute do not bind future legislatures. Case in point: PA 221 of 1999, the Congressional Redistricting Act, established guidelines for drawing Michigan's congressional districts. The guidelines comprised provisions for strict population equity, upholding the Voting Rights Act, preserving political boundaries, contiguity, compactness, single-member districts, and numbering districts. In 2002, a group of voters challenged the redistricting plan that the 2001 legislature passed, contending in part that the plan failed to comply with PA 221 of 1999. The Michigan Supreme Court, however, opined that PA 221 of 1999 is not binding beyond the 1999 legislature because, in essence, when the 2001 legislature approved the congressional redistricting plan, the statute they passed superseded the provisions of PA 221 of 1999. Thus, this opinion also puts PA 463 of 1996, the statute defining legislative redistricting guidelines, in question.

To ensure that the process occurs in a way that minimizes bias and to ensure that districts have the preferred characteristics, it is necessary to amend the Michigan Constitution with valid and binding language. District boundaries determine from which voters a candidate must gain support, creating an incentive for a redistricting entity to try to bias districts to advantage one group over another—called gerrymandering. While it may be too difficult to isolate the effects of gerrymandering to measure them, most experts agree that gerrymandering distorts voters' choices and undermines the legitimacy of our democracy. These experts argue that a transparent redistricting process—outlined in a state's constitution, offering opportunities for public engagement and minimizing political control—can do much to deter gerrymandering and uphold the integrity of the political system.

Apportionment is the process of determining how many members of the U.S. House of Representatives will represent each state, and redistricting is the process of drawing the districts for those members as well as for the members of the state legislature.

Apportionment vs. Redistricting

Apportionment is the process of determining how many members of the U.S. House of Representatives will represent each state, and redistricting is the process of drawing the districts for those members as well as for the members of the state legislature. Therefore, reapportionment is the reallocation of seats, typically following an updated population count. The federal government apportions congressional seats among states and the states, in turn, are responsible for ensuring that there are set boundaries for each seat's district and that those districts fulfill federal and, where applicable, state requirements. States fulfill this obligation through redistricting, the process of redrawing the geographic boundaries of districts. States usually redistrict legislative districts at the same time as congressional districts. Maps of Michigan's congressional and legislative districts that legislators drew after the 2000 census can be found in **Appendix A**.

Reapportionment

The U.S. Constitution prescribes for the reapportionment of congressional districts among the states. There are 435 seats in the U.S. House, a number that has not changed since taking effect in 1913,[2] except for a temporary increase to 437 when Alaska and Hawaii joined the union in 1959.[3] Article I, Section 2 of the U.S. Constitution guarantees each state at least one seat in the House of Representatives and, following each decennial census, requires Con-

The 2010 Census Process[a]

In March 2010, the Census Bureau sent census forms to over 130 million addresses; and households completed and returned the forms. In December 2010, the Census Bureau delivered to the President the 2010 state resident and apportionment populations. The Census Bureau then distributed the data to the states. It shipped the first data sets to the States of Louisiana, Mississippi, New Jersey, and Virginia on February 2, 2011 and the final data sets to the District of Columbia, Maine, and New York on March 22, 2010, using internal state deadlines to determine the order.[b] Michigan was one of the last states to receive its census data; the Census Bureau sent the data on March 21, 2010.

gress to reapportion the remaining 385 seats among the states based on population. Since 1941, Congress has used the Method of Equal Proportions to reapportion seats. See **Appendix B** for a description of this method.

The population that Congress uses comes from the U.S. Census Bureau and sums each state's decennial census resident population with its portion of overseas U.S. military and federal civilian employees and their dependents living with them—data that employing federal departments and agencies provide.[4] The number of seats assigned to each state ranges from one in Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming to 53 in California.

Because of a quickly growing population, Michigan's number of congressional districts climbed from 12 in 1900 to a high of 19 in 1960 and 1970 (see **Chart 1**). Since then, Michigan has lost congressional districts following each decennial census as a result of population growth that lagged that of other states. Following the 2010 census, Michigan was the only state to have a net population loss and, as a result, lost one congressional district. Thus, at the November 6, 2012 general election Michigan voters will elect just 14 members to the U.S. House. Despite the change, Michigan will still rank eighth in the number of seats in the House. Illinois, Iowa, Louisiana, Massachusetts, Missouri, New Jersey, and Pennsylvania also each will lose a seat, and New York and Ohio will each lose two seats.[5] Meanwhile, Texas will gain four seats; Florida will gain two seats; and Arizona, Georgia, Nevada, South Carolina, Utah, and Washington each will gain one seat.[6]

Since reaching a high of 19 congressional representatives in 1960 and 1970, Michigan has lost congressional districts following each decennial census as a result of population growth that lagged that of other states.

The Michigan legislature will redraw district boundaries in 2011 to better reflect the number and location of Michigan residents. **Map 1** describes the significant Michigan county population changes since the 2000 census. Because southeast Michigan has experienced the largest decline in population relative to other regions in the state, congressional districts in this region are most likely to be affected by the state's loss of a seat in the U.S. House. Although the number of Michigan House and Senate districts is constitutionally fixed, population changes within the state over the last decade will require redistricting that shifts the distribution of seats from less- to more-populous areas within the state.

State Approaches to Redistricting

The entity responsible for redistricting varies substantially from state to state and between congressional and legislative redistricting processes. To summarize the approaches, this paper uses categorizations for both congressional and legislative redistricting processes that the Rose Institute of State and Local Government created.[7] Based at Claremont McKenna College in California, the Rose Institute conducts and publishes research on issues related to the governance and politics of California. CRC uses the Rose Institute's categorizations because of their attention to the subtle differences among processes. In addition to the category descriptions, U.S. maps that the Rose Institute created provide a visual reference for understanding the variation of approaches among states (see **Maps 2** and **3**).

The entity responsible for redistricting varies substantially from state to state and between congressional and legislative redistricting processes.

Standard Legislative Process. A legislative committee creates a redistricting plan and submits it, in the form of a bill, to the full legislature. Upon final legislative approval, the redistricting plan is subject to gubernatorial veto. This is the process that Michigan and 19 other states use for legislative redistricting.

Legislature. The legislature, not a legislative committee, creates and passes a redistricting plan in bill form that is subject to gubernatorial veto. This is the most common redistricting approach. Forty states use this process for congressional redistricting.

Total Legislative Control. The legislature creates and passes a redistricting plan; the governor may not veto it. Two states use this process for both congressional and legislative redistricting.

Legislative System with Back-Up. The legislature is responsible for creating and passing a redistricting plan that is subject to gubernatorial veto. If the legislature fails to pass a plan by a certain date, the governor vetoes the plan, or the state supreme court rules the plan invalid, a non-judicial entity—secretary of state, a commission, etc.—assumes responsibility for creating the redistricting plan. Ten states use this process for legislative redistricting.

Non-Legislative Political Control. A group of public officials create a redistricting plan that may or may not be subject to legislative or gubernatorial approval. In Arkansas this group comprises the governor, secretary of state and attorney; in Ohio, it is a board of legislative appointees and executives; in Maryland, it is the governor and an advisory committee of legislators.

Advisory Commission. The advisory commission drafts a redistricting plan or advises the legislature on the creation of a plan that is subject to legislative approval and may or may not be subject to gubernatorial veto, depending on the state. In some states, the legislature may amend the plan. The advisory commission comprises leaders from each legislative chamber or individuals that legislative or political leaders appoint and, at times, individuals that the commission members elect. Two states use this process for congressional redistricting; two for legislative redistricting.

Legislature-Appointed Commission. The legislature-appointed commission comprises individuals that members of the state legislature appoint and, in some states, also individuals that the appointed individuals elect. The committee creates a redistricting plan that may or may not be subject to legislative approval, depending on the state, and that is not subject to gubernatorial approval. In some states, the legislature may provide recommendations to the commission and/or may amend the plan. Four states use this process for both congressional and legislative redistricting.

State-Appointed Commission. The state-appointed commission comprises individuals that the governor and chief justice appoint and the majority and minority leaders of each chamber—or individuals that the majority and minority leaders of each chamber appoint. The state-appointed commission creates a redistricting plan that is not subject to legislative or gubernatorial approval. Three states use this process for legislative redistricting.

Entity Responsible for Congressional Redistricting

Party-Appointed Commission. The majority and minority leaders from each chamber appoint individuals to the commission and the appointed individuals elect additional individuals to the commission, or the state Republican and Democratic parties appoint individuals to the commission—in some states with input from the governor. The party-appointed commission creates a redistricting plan that is not subject to legislative or gubernatorial approval. One state uses this process for congressional redistricting; two for legislative redistricting.

Independent Commission. An existing independent state entity (i.e. Appellate Court Committee or Auditor Committee) creates a list of candidates with an equal number of Republicans and Democrats and a number of independents. Party or legislative leaders then choose or strike, respectively, names from each political subpool. In California, a lottery is used to select eight members from the list, with representation from each political party; these members elect six additional members. The independent commission creates a redistricting plan that is not subject to legislative or gubernatorial approval. One state uses this process for congressional redistricting; two for legislative redistricting.

Considerations of the Various Approaches

While no approach is ideal, entrusting redistricting responsibilities to the legislature, the same entity that is the chief beneficiary of the process, fosters a process that seems to many to be inappropriate. District boundaries determine from which voters a

candidate must gain support, creating an incentive for a legislature with redistricting authority to try to draw districts that advantage incumbent legislators. Additionally, conferring redistricting authority to the legislature, a partisan entity by design, tempts the majority legislative party to try to create a redistricting plan that advantages its party. At the same time, independent redistricting bodies with equal representation among political parties often deadlock: not once during its 18-year existence did a majority of the eight-member Michigan Commission on Legislative Apportionment agree on a redistricting plan; following the 1960, 1970, and 1980 censuses, the Commission split along partisan lines. And yet there may still be benefits in using a non-legislative redistricting entity in that it minimizes incumbent legislators' ability to draw their own districts. Whatever the responsible entity, if it does not agree on a plan, another entity—in Michigan, the state Supreme Court—will ultimately finalize the redistricting plan. But even these secondary entities often have partisan leanings. For example, in Michigan political par-

The Michigan Supreme Court and Partisan Concerns

Given the Michigan Supreme Court's critical role in redistricting, it is important to consider whether the court is free from partisan influences when it considers redistricting questions. While the justices are elected in nonpartisan elections, political parties nominate the candidates at the parties' state conventions. Because the court has seven members, one of the two main political parties generally will have nominated a majority of the justices serving on the court. If the court decides a redistricting case in a way that favors the political party that nominated the majority of the justices, it can raise concerns that the court was not fully objective and fair in representing the interests of all Michigan citizens.

This problem is not easily resolved. It is extremely important that Michigan citizens feel that their interests are impartially considered in a dispute over redistricting or any other matter. Removing the political parties from the judicial nomination process could help address these concerns.

ties nominate Supreme Court candidates, who, if elected, ultimately hold office without explicit political affiliations.

In choosing the type of entity responsible for creating redistricting plans, states make decisions about the size of those bodies. According to the Brennan Center for Justice, "Redistricting bodies range in size from 424 legislators in New Hampshire to just three executive officials in Arkansas." There is no magic number; and if a state assigns redistricting responsibility to an existing entity, such as the legislature, there may be no flexibility in the size. However, if a state creates a unique entity, a size of 7 to 15 individuals may be ideal to foster productivity while having enough members to represent the state's diversity in terms of geography, ethnicity, race, etc.[8]

The size of the redistricting entity is also important because it can dictate the challenges the entity will face. An odd number prohibits deadlocked decisions, but it may also result in one political party holding a majority. In states in which the responsible entity is the legislature, the legislature and governor (if controlled by the same party), or a commission with unequal political representation, a single party will dominate the redistricting process. If the responsible entity has an even number of members, it is possible to achieve equal political representation but it is also more likely that there will be a stalemate. To avoid gridlock, some states that use an entity with equal political representation also appoint a tiebreaker acceptable to both parties, which in practice will be someone nonpartisan or willing to act in a nonpartisan fashion.

Michigan's Approach to Redistricting

Although today the Michigan legislature creates congressional and legislative redistricting plans, this has not always been the case. Article IV, Section 6 of the Michigan Constitution creates an independent Commission on Legislative Apportionment and assigns it the responsibility for drawing districts for the state's 38 Senate and 110 House seats. However, in 1982 the U.S. Supreme Court ruled that apportionment based, to any extent, on land area—as Article IV, Section 2 of the Michigan Constitution directs—violates the Equal Protection Clause of the U.S. Constitution.[9] Because of the non-severability between Sections 2 through 6 of Article IV, in 1982 the Michigan Supreme Court invalidated the redistricting provisions of all five sections.[10] Since then, the state legislature has attempted to carry out both congressional and legislative redistricting.

In 1964 the U.S. Supreme Court ruled that apportionment based, to any extent, on land area—as Article IV, Section 2 of the Michigan Constitution directs—violates the Equal Protection Clause of the U.S. Constitution.

When legislators propose a redistricting plan, they do so by introducing in the House or Senate a bill that includes the details of one or more plans. The bills are referred to the House and Senate committees responsible for redistricting; in 2011 these committees are the House Redistricting and Election Committee and the Senate Redistricting Committee. Each committee comprises nine mem-

Michigan Redistricting Laws

- **Michigan Constitution Article IV, Sections 2 to 6** defines Michigan's legislative redistricting approach. These sections create the Commission on Legislative Apportionment and assign to it the responsibility for drawing legislative districts that have population variances of 25 percent above or below the ideal district size, preserve political boundaries, are contiguous and compact, and have single-member districts. In 1982, the Michigan Supreme Court invalidated the redistricting provisions in these sections because one requirement violates the Equal Protection Clause of the U.S. Constitution and the others were non-severable from the violating section.
- **Public Act 463 of 1996** establishes guidelines for drawing Michigan's legislative districts and confers jurisdiction on the Michigan Supreme Court to review redistricting plans for compliance with those guidelines, which comprise provisions for a maximum 10 percent total population variance, upholding precedents related to the Voting Rights Act, preserving political boundaries, contiguity, compactness, and single-member districts. The *LeRoux v. Secretary of State* opinion (described in the next bullet) suggest that PA 463 of 1996 does not bind the legislature when creating redistricting plans.
- While Michigan has no binding guidelines for congressional redistricting, **Public Act 221 of 1999, Congressional Redistricting Act** establishes guidelines for drawing Michigan's congressional districts. The guidelines comprise provisions for strict population equity, upholding the Voting Rights Act, preserving political boundaries, contiguity, compactness, single-member districts, and numbering districts. In *LeRoux v. Secretary of State, 465 Mich. 594; 640 NW 2d 849 (2002)*, the Michigan Supreme Court opined that PA 221 of 1999 is not binding beyond the 1999 legislature because, in essence, when a legislature approves a congressional redistricting plan, the statute it passes supersedes the provisions of PA 221 of 1999.
- **Public Act 222 of 1999** confers jurisdiction on the Michigan Supreme Court to hear and decide cases on congressional redistricting and to review and order congressional redistricting plans.
- **Public Act 282 of 1964, as amended by PA 115 of 2001,** describes Michigan's current congressional districts.
- **Public Act 116 of 2001** describes Michigan's current legislative districts.

bers, who the respective majority leaders appoint to two-year terms. Within 60 days of the enactment of a congressional or legislative redistricting plan, any elector may apply to the Michigan Supreme Court for review of the plan.[11] If the plan fails to comply with existing laws, the Michigan Supreme Court may modify or remand that plan to a special master for further action.[12]

If the state legislature and governor have not adopted congressional and legislative redistricting plans by November 1st of the year following the decennial census, the majority or minority leaders of either chamber or a political party may request that the Michigan Supreme Court create the plan.[13] The Michigan Supreme Court then has until April of the following year—the second year after the decennial census—to develop a plan. Following the 1990 census, political control of the Michigan Legislature was divided and the legislature was unable to reach consensus on a redistricting plan; therefore the Michigan Supreme Court created the legislative redistricting plan.[14] After the 2000 census, the same political party controlled the state legislature and the governor's office, a redistricting plan was adopted and the Michigan Supreme Court upheld the plan against legal challenges.

Michigan's Unconstitutional Constitutional Provisions

Article IV, Section 6 of the 1963 Michigan Constitution creates the Commission on Legislative Apportionment and assigns to it the responsibility of drawing legislative districts. However, when the Commission repeatedly failed to reach agreement on redistricting plans – based on the 1960, 1970, and 1980 censuses – the Michigan Supreme Court assumed responsibility. In doing so in 1982, the Court took things a step further.

Article IV, Section 2 of the 1963 Michigan Constitution includes provisions to apportion legislative districts based on each county's share of the state's population and the state's land area. However, in 1982 the Michigan Supreme Court opined that principle is unconstitutional based on the 1964 U.S. Supreme Court "one person, one vote" ruling.[1] Because of the non-severability among Sections 2 through 6 of Article IV, the Court ruled that the redistricting provisions of all 5 sections became null and void with the "one person, one vote" ruling.[2] The Court found that both standards and process are "inextricably intertwined" and the Commission cannot survive without redistricting rules.

Removing the invalidated language from the Constitution requires a constitutional amendment, which can occur as the result of legislative-referred or voter-initiated proposals, or a constitutional revision, which can occur by means of a constitutional convention.[3] Yet, neither the legislature nor voters have used their power to propose such a constitutional amendment, and there has been no constitutional convention since the 1960s. Upon removing the "land area" language, the remaining, previously invalidated language (on the basis of non-severability), may become valid.

It is noteworthy that each of the four Michigan Constitutions adopted since 1835 has contained specific legislative apportionment provisions. This suggests that voters have deemed it unwise to leave the matter to the discretion of any branch of state government, including the judiciary. Given the historical preference of Michigan voters, and due to the fundamental importance of redistricting, state constitutional provisions specifying what entity should bear responsibility for the process and what standards should govern the process would seem a prudent recourse. A new redistricting process designed to produce districts that are drawn in conformance with specific standards is imperative to ensure the unbiased and effective representation of Michigan citizens.

Federal Requirements for Redistricting

The federal government provides minimal restrictions on states' redistricting processes. The U.S. Constitution mandates equal representation among districts, and the Voting Rights Act requires that States provide minority groups an equal opportunity to elect candidates of their choice.

Population

The Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution requires that every U.S. citizen receive equal congressional and legislative representation. However, defining "equal" presents challenges. The U.S. Supreme Court has ruled that the only permissible deviation from strict equity among congressional district population within a given state is the deviation necessary to comply with the Voting Rights Act and state requirements, such as compact or contiguous districts.[15] One might imagine that such a rule could lead to wide variation among district sizes in a state, but existing technology and congressional districts' large sizes make it possible to create districts with little to no population variation. Following the last two censuses, most states drew congressional districts with variations of just one person.[16] Current congressional districts have total variations[17] of no more than 0.6 percent from the ideal district size within a given state (see **Table 1** on page 12). However, because the U.S. Constitution apportions at least one congressional seat to even the smallest state, congressional districts among states have a total variation of 38 percent.

To provide flexibility in drawing legislative districts that fulfill other federal and state requirements, the U.S. Supreme Court has held that, when there exists meaningful state requirements or unique geographical features, legislative districts may have variations larger than those permitted for congressional districts.[18] The U.S. Supreme Court generally requires justification for legislative districts that have a total variation of more than 10 percent[19] and has indicated that a total variation of 16.4 percent may "approach tolerable limits."[20] On average, current legislative districts have a total variation of seven percent (**Table 1** on page 12). Michigan statute permits legislative districts to be greater or less than the ideal district size by up to five percent, for a total variation of up to 10 percent.[21]

The U.S. Constitution mandates equal representation among districts, and the Voting Rights Act requires that States provide minority groups an equal opportunity to elect candidates of their choice.

In addition to the ambiguity regarding equity in size, there may exist ambiguity regarding the population on which size is based. The federal government uses the apportionment population described previously to apportion congressional seats, while most states, including Michigan, use the decennial census resident population as the base for redistricting. States may use alternative population bases for redistricting as long as the state uses the alternative base uniformly[22] and the resulting districts reflect districts that could be produced using the census resident population.[23] Alternative bases include the population of residents of voting age, the population of citizens of voting age, the population of registered voters, the population of voters who participated in a recent election or set of elections, and the population determined by a state-conducted census.[24]

Regardless of the population base that a state uses, because federal and state laws limit the right to vote—based on, for example, age, citizenship, criminal conviction, etc.—and because enfranchised and non-enfranchised people do not reside evenly among geographic areas, the ratio of people to eligible voters varies among districts.[25] This variation combined with use of the decennial census resident population can significantly impact the weight of individual votes in some districts. For example, the census counts incarcerated individuals in the locations where they are imprisoned. Because not all prisoners are enfranchised, this inflates the voting power of districts that have prisons, and because some prisoners are enfranchised, this reduces the voting power

in districts whose residents are incarcerated. The Equal Protection Clause does not prohibit redistricting plans with equal populations and yet unequal numbers of enfranchised people.

Equal Opportunity

Ensuring minority groups an equal opportunity to elect candidates of their choice is one requirement that may induce variation among district populations. Passed in 1870, the Fifteenth Amendment to the U.S. Constitution prohibited voting restrictions based on race. However, southern states used poll taxes, literacy tests and other means to continue to disenfranchise African Americans. It was not until passage of the Voting Rights Act of 1965 that minorities received protection from discrimination in voting practices.

Ensuring minority groups an equal opportunity to elect candidates of their choice is one requirement that may induce variation among district populations.

Sections 2 and 5 of the Voting Rights Act are particularly relevant to the redistricting process. Section 2 requires that states provide minority groups an equal opportunity to elect candidates of their choice. Three determinants, called the Gingles factors, describe for which groups states must provide equal opportunity:

- Minority groups that are large enough and geographically compact enough to constitute a majority of the voting age population in a single-member district;[26]
- Minority groups whose members have a history of voting for the same candidate; and
- Minority groups in districts where the majority group votes as a bloc to the extent that it usually defeats the minority's preferred candidate.[27]

Minority groups may comprise individuals of a racial or language group, but there is no consensus on whether a minority group may comprise individuals of multiple racial groups if they do not share a common language.[28]

Section 2 concerns whether equal opportunity exists, not whether the redistricting entity intends to provide or deny equal opportunity. Thus, rather than focusing on a redistricting entity's motivations, the extent to which members of a minority group have been elected to public office can indicate whether or not a government has violated the Voting Rights Act with its redistricting plan. If, in a given district, there is a history of the minority group's preferred candidate being defeated after receiving the majority of votes in the predominantly minority precincts and few votes in the predominantly majority precincts, then it is likely that the district violates the Voting Rights Act.

Similarly, Section 2 concerns elections in which minority and majority groups prefer different candidates, not the reasons for voters' preferences. Thus, a minority group's preferred candidate does not need to be of the same race or language as the group.[29] If the candidates in a given election are of the same race and language and yet the candidate that the minority group prefers loses, this could be evidence of a violation. In determining whether a minority group's vote has been diluted, the courts must consider the totality of circumstances.[30]

While there is no single quantitative way to prove that a redistricting plan provides equal opportunity to minority groups, proportionality may provide evidence in support of a plan. Proportionality is the percent of districts in which the minority group is the predominant group compared to the percent of the total population that the minority group represents. This measure is also used in Section 5 of the

Map 4
Section 5 Covered Jurisdictions

Voting Rights Act to help identify jurisdictions in which minority groups are at risk of experiencing discrimination. The jurisdictions covered under Section 5 (see **Map 4**) may only change their election practices, including district boundaries, with the approval of the U.S. Attorney General. This means that the U.S. Attorney General must review all redistricting plans affecting these jurisdictions before such plans may be implemented. In Michigan, only Clyde Township in Allegan County and Buena Vista Township in Saginaw County are subject to these restrictions.[31]

Although progress has been made over time, minorities still struggle to win elections in districts that majority groups dominate. According to the American Civil Liberties Union, "Throughout the 1970s and 1980s, only about 1% of majority white districts elected a black candidate.... The number of blacks elected to state legislatures increased after the 1990 redistricting, but the increase was the result of the increase in the number of majority black districts." In 2000, majority white districts elected only four of the 38 black members of Congress, and majority white districts elected none of the Latino members of Congress.[32]

State Requirements for Redistricting

In addition to the federal population and equal opportunity requirements, states may adopt secondary guidelines to govern and constrain the redistricting process. The most common requirements are that districts adhere to political boundaries, preserve communities of interest, and be contiguous and compact (see **Table 2**). These requirements are based on the idea that a single elected official should represent those with shared characteristics and interests, and, in doing so, the representative may be more responsive to local needs. Additionally, such requirements can decrease the time it takes for candidates and voters to travel to the various parts of the district. While requirements can make gerrymandering more difficult, adding state requirements may make it more difficult to abide by federal requirements, and fulfilling one state requirement may require neglecting other state requirements.

> The most common requirements are that districts adhere to political boundaries, preserve communities of interest, and be contiguous and compact.

Commonly Used Requirements

Michigan and many other states use the following common redistricting standards as guidelines for redistricting plans.

Political Boundaries

Many states require redistricting plans to respect political boundaries, such as the boundaries of a county, township, or city. This type of requirement may take a number of forms:

- Preserve all county boundaries;
- Break no more than a specific number of county boundaries;
- Maintain county boundaries; if the redistricting plan must break a county boundary, maintain city and township boundaries; if the redistricting plan must break a city or township boundary, do so in such a way that maximizes compactness—this is Michigan's approach.[33]

Adhering to political boundaries minimizes the burden on local governments to administer elections while simplifying the organization of political jurisdictions for voters. However, it also may make it more difficult to provide opportunities for minorities, preserve communities of interest, and create competitive districts. Similarly, because of residential patterns of political segregation and the compact nature of predominantly Democratic urban jurisdictions, preserving political boundaries may create a Republican bias;[34] this phenomenon is discussed in more detail later in this paper.

Communities of Interest

A redistricting plan that preserves communities of interest places into the same districts individuals within close proximity to one another, who share cultural, economic, ethnic, political, religious, or social ties. Communities of interest may be difficult to define, because shared interests may not be obvious and people's interests change. To preserve communities of interest, some suggest preserving census tracts, which generally have populations that share meaningful characteristics; others suggest asking communities to identify themselves.[35]

In every census between 1940 and 2000, about one in every six households received a long form, which asked approximately 50 questions more than the short form.[36] While the short form's questions center on basic demographics (gender, age, and race), the long form's questions generated information about households' socioeconomic and housing characteristics, information that may be useful in identifying communities of interest. Although the 2010 census did not use the long form, those states that have used the long form data in the past to identify communities of interest may now use the American Community Survey, which provides comparable data based on sampling rather than a full census and available on a more frequent schedule—annually

rather than once per decade. Even without the American Community Survey, the type of information that the Census Bureau provides states for redistricting purposes—commonly referred to as PL 94-171, the public law that required the Census Bureau to distribute the information—will not change. PL 94-171 was based on the short form in 2000.[37] Thus, the 2010 census data that states use in 2011 redistricting will have a similar level of detail as the 2000 census data that states used in 2001 redistricting.

Contiguity

In a contiguous district, there is the ability to move to any location within the district without leaving it. If a body of water separates land in a district, the district is contiguous if a bridge runs across the water. A district with an island is contiguous if the island is part of the same district as the closest mainland or, in Michigan, if the island is part of the same district as the county in which the island is located.[38] Because political boundaries are not always contiguous, preserving political boundaries may lead to noncontiguity. New York State Senate District 60 is one example of a noncontiguous district. It comprises an island and three separate geographic areas on the mainland, the white sections indicated in **Map 5**.

An Example of a Noncontiguous District

Compactness

Districts that are compact minimize the distances among district residents. Although most states that require compact districts do not specify how to measure compactness,[39] there are many such measures. Applying multiple measures to the same district may lead to different conclusions about the district's compactness. Some popular measures include:

- Shape: Districts in the shape of a circle, square, or hexagon are more compact.[40]
- Boundaries: Districts with smoother rather than squiggly boundaries are more compact.
- Perimeter: Districts with smaller perimeters are more compact.
- Area: The closer a district's area is to the area of the smallest circle or polygon that can be drawn around the district, the more compact the district. This is the measure that Michigan uses.[41]
- Perimeter and area: The closer the area of a district is to the area of a circle with the same perimeter, the more compact the district.
- Dispersion: The more equal the height and width of a district, the more compact the district.
- Shape and population: The closer a district's population center is to the geographic center of the district, the more compact the district.

Because maximizing compactness may prohibit meeting other requirements, states may require that each district individually, the sum of all the districts, or the districts on average simply meet some compactness threshold.[42] As previously mentioned and as discussed in more detail later in the paper, requiring compactness may create a Republican bias in a redistricting plan.

Lesser Used Requirements

While Michigan and many other states use the most common redistricting standards as guidelines for redistricting plans, a few states use a number of less common principles: limiting the use of certain data, drawing competitive districts, respecting geographic boundaries, nesting house districts in senate districts, engaging the public, avoiding multi-member districts and redistricting on a decennial basis.

Data

A few states, not including Michigan, have redistricting requirements specifying what data a redistricting entity may reference in drawing district boundaries. Some states prohibit consideration of any person's residence; others only prohibit considering incumbents' residences but not the residences of potential candidates.[43] Arizona prohibits the use of incumbents' residence data but permits the use of party registration and voting history data after the "initial phase of mapping."[44] Similarly, Montana prohibits "in the development of a plan" the use of data on incumbents' residences, registered voters' political affiliations, previous election results, and partisan political voter lists.[45] Iowa prohibits the use of data on incumbents' residences, previous election results, and demographics other than population, unless required by federal law.[46] Idaho only allows its redistricting entity to consider population data.[47]

In restricting a redistricting entity's use of data, these requirements seek to minimize district boundaries that disproportionally advantage specific individuals or groups. District boundaries determine from which residents a candidate must gain support. A redistricting entity may stretch or contract district boundaries to place a given incumbent among his preferred constituency, to separate an incumbent from his preferred constituency, or to place two incumbents in the same district, forcing them to compete against one another. Requirements to prohibit the use of incumbent residence addresses attempt to eliminate these types of gerrymandering.

While these requirements attempt to instill integrity into redistricting processes by minimizing political motivations, there is no reliable evidence of their effectiveness. First, members of redistricting bodies likely know the location of legislators' residences and may consider those locations regardless of provisions instructing otherwise. Second, such efforts are not foolproof because voters move. Thus, with time, the effects of redistricting based on the location of individual residences fades. Term limits compound this challenge because they make it difficult to anticipate the optimal boundary lines given that future candidates are unknown.

Although researchers have not achieved consensus on the effects of competitive district requirements, proponents of competitive districts cite many benefits, including more responsive and moderate elected officials, decreased political corruption, basic fairness, and increased participation in elections.

Competitive Districts

A competitive district is one in which candidates from each of the dominant political parties have a reasonable chance of winning the general election. Districts with relatively equal numbers of Democrat and Republican voters may breed competition by building confidence among members of the party that is not in power that they have a chance of electing their preferred candidate and by instilling insecurity in members of the incumbent party that their preferred candidate may not be elected.

Although researchers have not achieved consensus on the effects of competitive district requirements (see "Competitive Districts and Political Polarization" on page 24), proponents of competitive districts cite many benefits, including more responsive and moderate elected officials, decreased political corruption, basic fairness, and increased participation in elections. Competition may incent incumbent representatives to respond to constituents' preferences, because voters can hold them accountable at the next election. Competitive districts may discourage extreme political candidates because they have difficulty appealing to centrist swing voters. At the same time, competitive districts may limit political corrup-

tion by limiting one party's control of a given district. Perhaps most importantly, though, "competitive districts appeal to our sense of fairness."[48] For all these reasons, some believe that competitive districts may improve voter turnout.[49]

In addition to disagreeing about the benefits, opponents of competitive districts argue that competitive districts do not necessarily foster competitive elections. In the short run, the advantages of incumbency—such as name recognition and an existing public platform—may clinch a wide-margin victory for the incumbent despite competitive-district engineering. Over the years, voters may change their preferences or move, rocking the political balance of a district designed to be competitive.

States pursue competitive districts using a variety of approaches. Some states require the redistricting entity to consider district competitiveness as one of a number of priorities.[50] Others prefer to let competitive districts evolve more organically by simply prohibiting their redistricting bodies from using data about voter political affiliations, except when necessary to adhere to the Voting Rights Act and even though members of redistricting bodies likely understand voting patterns without data.[51] Still another approach is setting a threshold of the number of districts that must be competitive or the minimum level of competitiveness required in each district. Michigan has no requirement encouraging or discouraging competitive districts.

Geographic Boundaries

Although Michigan does not, some states require that district boundaries follow geographic boundaries. This is the most impartial redistricting requirement that a government can use because, for the most part, governments do not set the location of natural features like mountain ranges, rivers, and lakes. However, if a government values districts that provide opportunities for minorities, are competitive, etc., random assignment may not foster such districts. And yet requiring district boundaries to align with geographic boundaries results in districts that comprise individuals who live near, in, or on a common natural feature, share a common interest, and, therefore, may merit a common representative.

Nesting

Nesting is the process of drawing lower legislative chamber districts within higher legislative chamber districts. It requires the number of lower legislative chamber seats to be a multiple of the number of higher legislative chamber seats. Because of this, nesting currently is not possible in Michigan. While nesting simplifies the organization of political jurisdictions for voters, it may also limit variety in representation by using the same constituency groupings for both chambers.

> Efforts to instill transparency and public engagement in the redistricting process educates the public about the redistricting process while also serving as evidence when defending the plan in court.

Transparency and Public Engagement

An open redistricting process can develop trust between redistricting entities and the public, possibly minimizing lawsuits and increasing participation in the democratic process. As of 2006, 35 states required some form of transparency in their redistricting processes, usually through public hearings.[52] Because the Michigan legislative committees responsible for redistricting are standing committees, their meetings are open to the public. Open meetings are the extent of Michigan's redistricting transparency requirements.

States may engage the public in many other ways. Some states solicit feedback on redistricting plans while others consider plans that members of the general public design.[53] States can also require redistricting bodies to report the motivations for their plans or distribute a record of all redistricting meetings. This type of information educates the public about the redistricting process while also serving as evidence when defending the plan in court. However states engage the public, it comes at the cost of time. Moreover, public engagement may make it more difficult for redistricting entities to make good policy decisions that are politically unpopular.

Multi-Member Districts

Multi-member districts are districts with two or more representatives. Federal law prohibits multi-member congressional districts, but some state and many local governments still use multi-member districts.[54] Michigan does not use multi-member districts for state legislative offices.

Governments that use multi-member districts may require that each district has the same number of representatives, or they may allow the number of representatives to vary by district. Multi-member districts are very compatible with nested districts in that the higher and lower legislative chamber districts may have the same boundaries, but the higher legislative chamber district will have one representative while the lower legislative chamber district will have more than one representative.

Using multi-member districts may help preserve political and geographic boundaries as well as communities of interest, but it can make it more difficult to abide by the provisions of the Voting Rights Act. Because multi-member districts are larger than single-member districts, redistricting entities may divide fewer political boundaries, geographic boundaries, and communities of interest than single-member districts. At the same time, combining multi-member districts with a typical voting method, in which each elector submits one vote for each preferred candidate, may make it more difficult for minority groups to elect a candidate of choice. This is because the majority group's preferences can dominate repeatedly, electing the majority group's preferred candidates for every open seat.

One adaptation of multi-member districts is the floterial district, which is a district layered on top of portions of multiple single-member districts such that parts of each of the single-member districts have

Alternative Voting Methods

Alternative voting methods—such as cumulative, instant runoff, or limited voting—may resolve problems of majority group dominance in multi-member district elections.[1] Lists of state and local governments that use these voting methods can be found at FairVote.org.[2]

- **Cumulative.** Each elector has a certain number of votes that may be distributed equally or unequally among candidates—one vote for each candidate or more than one vote per candidate—until the elector has used up the votes. For example, if there are five candidates and three seats, each elector may submit three votes, one vote for each of three candidates; two votes for one candidate, and one for a second candidate; or three votes for one candidate.
- **Instant Runoff.** Each elector ranks the preferred candidates for the available seats. For example, each elector ranks the first choice as 1, the second choice as 2, the third choice as 3, etc. A candidate requires a certain minimum number of votes to be elected, most commonly one vote more than the number of votes equally divided among one more than the number of open seats. For example, if electors cast 100,000 votes to fill three seats, a candidate needs 25,001—(100,000/4)+1—votes to be elected. Election officials count all of the '1' votes. If a candidate has more than 25,001 votes, that candidate is elected and the surplus votes are transferred to the candidates listed as '2' on the ballots. If, even after transferring votes, no candidate has more than 25,001 votes, election officials eliminate the candidate with the fewest votes and transfer that candidate's '3' votes. This process repeats until every seat is filled.
- **Limited.** Each elector has fewer votes than there are open seats and may only submit one vote per preferred candidate. For example, if there are five candidates and three seats, each elector may submit two votes and the top three vote getters are elected.

more than one elected official.[55] Floterial districts are useful in fulfilling competing redistricting requirements. For example, if a state requires the preservation of political boundaries, has an ideal district size of 100,000, and has contiguous cities with populations of 150,000 each, the state can fulfill both federal and state requirements by creating a single-member district in each city and a floterial district of 150,000, comprising 75,000 from each city.[56] Each district meets the federal requirement of equal population and the single-member districts maintain political boundaries. Moreover, the 300,000 voters cooperatively elect three representatives, conforming to the voting power standards that the ideal district size establishes.

Approval Threshold

Although most states require a simple majority of the redistricting entity's members to vote in support of the redistricting plan for it to take effect, some require a super-majority. California, Connecticut and Maine require two-thirds super-majorities, while Missouri requires a 70 percent supermajority.[57] Supermajority requirements may create an incentive for bipartisanship in drafting redistricting plans, but they do not safeguard against gerrymandering. Instead, members of the redistricting entity, particularly if the redistricting entity comprises legislators, may collude to protect all incumbents, regardless of political party. Supermajority requirements also make a stalemate more likely.

Frequency

While most states redistrict once per decade, a few states redistrict more often (see **Maps 6** and **7**). Michigan law requires legislative redistricting once every ten years, beginning November 1, 2001,[58] to coordinate with the decennial census. PA 221 of 1999 stated the same requirement for congressional redistricting, but the Michigan Supreme Court ruled in 2002 that this law was not binding beyond the 1999 legislature,[59] leaving the legislature free to redistrict more than once per decade. Nineteen states prohibit redistricting more than once per decade for state legislative districts, and four do the same for congressional districts. Requirements permitting redistricting more than once per decade may only allow mid-decade redistricting under special circumstances, or they may allow redistricting as often as the responsible entity prefers.

The most famous case of mid-decade redistricting may be the 2003 Texas congressional plan. In 2002, for the first time in 130 years, Republicans won majorities in the Texas House and Senate.[60] Upon taking office in 2003, the legislature redrew Texas's congressional districts, which the Democrat-controlled legis-

Note: the original map stated that Michigan had no laws regarding the frequency of redrawing legislative districts. However, PA 463 of 1996 requires legislative redistricting once per decade.

lature had drawn in 2001. The U.S. Supreme Court upheld all but one of the redrawn districts.[61]

There are advantages and disadvantages to redistricting more than once per decade. The advantage is the ability to maintain districts that reflect federal and state requirements. The disadvantage is that it enhances gerrymanders' abilities to respond to new threats and opportunities. Frequent redrawing also distorts elected officials' accountability to their constituents given the potential for ongoing shifts in voters among districts.

Prioritizing among Requirements

There is no standard among states for prioritizing the various redistricting requirements, and many states do not formally prioritize their requirements. Redistricting requirements often conflict, so identifying a formal prioritization builds consistency into the redistricting process and protects against gerrymandering that selectively fulfills some requirements over others. At the same time, there is no best way to prioritize among the various requirements. Michigan does not prioritize among its legislative district guidelines, but, when in effect, PA 221 of 1999 used the following prioritization for congressional district guidelines, in order of preeminence: equal population, equal opportunity to elect candidates, contiguity, adherence to political boundaries, and compactness.

Schedule

States generally have similar start and end dates for their redistricting processes, although exact deadlines may vary. By April 1st of the year following the census year, the U.S. Census Bureau releases to the states block-level data. Some states wait until this point to begin the redistricting process, while others, particularly those that create unique redistricting commissions, may begin selecting commission members before they receive their census data.[62] The filing deadline for a state's primary election in the second year after the decennial census is the most common deadline for finalizing redistricting plans.[63] In Michigan, the deadline for legislatively created plans is November 1st of the year following the decennial census. However, it may behoove a state to finalize plans before its deadline in an effort to address legal objections before plans are needed.

Interim deadlines are also helpful and important. According to the Brennan Center for Justice, "The amount of time that each state devotes to each part of the redistricting process can affect the resulting district lines. For example, states that allow relatively little time for the primary redistricting body to negotiate over various proposals may be more prone to deadlock, leaving responsibility for the final district lines to the courts or other backup institutions. In states with more time, on the other hand, public hearings may reveal unintended consequences of a particular proposal, and allow the primary redistricting body to adjust the map accordingly."[64]

Gerrymandering

Redistricting is fundamental to democracy because district boundaries determine from which voters a candidate must gain support and, ultimately, which individuals an elected official represents. Thus, the ways in which redistricting bodies may bias district boundaries to advantage specific individuals or groups is of great concern. Although there is no single measure to prove a district has been gerrymandered or to estimate the extent of gerrymandering, that does not mean that gerrymandering does not occur. Rather, it speaks to the complicated, often opaque process of redistricting. Similarly, the lack of reliable evidence demonstrating the effects of gerrymandering does not mean that gerrymander does not affect communities; it just may be too difficult to isolate the effects of gerrymandering to measure them. In order to assess and improve the redistricting process, it is important to understand how gerrymandering manifests so that changes to the process minimize opportunities for biasing boundaries and put in place controls for identifying and remedying gerrymandering when it occurs.

Techniques

Gerrymanderers use a variety of techniques in biasing district boundaries. They can draw boundaries to move from one district to another resident's who historically vote with certain partisan leanings or who are likely candidates for certain public offices, manipulating the choices that voters face. Gerrymandering techniques include packing, cracking, tacking, hijacking, kidnapping, and eliminating competitors.

Packing. Placing as many voters of one type in a single district to minimize the number of elections they can influence. For example, after the 2000 census, Republicans controlled both the Michigan legislature and the governor's office. In redistricting, they were alleged to have packed Democrats into Michigan's already heavily Democratic Fifteenth and Twelfth Congressional Districts to free up Republicans for the Eighth and Ninth districts.[a]

Cracking. Spreading voters of one type over many districts where they will comprise minorities that are unable to influence elections.[b] In 1992 Koreatown, a predominantly Korean American neighborhood comprising just more than a square mile of land in Los Angeles, was divided into five state assembly districts, with no single legislator accountable to the Korean American community.[c] If this was the result of gerrymandering, as many charge, it is an example of cracking.

Tacking. Reaching out from a district to grab a distant area with desired demographics. This is alleged to have been the technique that New York Democrats used to draw Assembly District 131 in 2002 (see **Map 8**). Because most of the district is in the predominantly Republican suburbs, the redistricting entity added a trail of heavily Democratic residences (northeast corner) to keep the Democratic incumbent in office.[d]

Hijacking. Separating an incumbent candidate from the candidate's constituents, and creating a district in which the candidate has no name recognition. Following the 2000 census, Michigan lost a congressional seat. The redistricting plan that the Republican Michigan legislature created and that the Republican governor approved shifted Democrat Congressman David Bonior's residence from the Tenth District to the more conservative Twelfth District; Bonior did not run for reelection but instead ran unsuccessfully to be the Democratic candidate for governor.[e] If this shift was the result of gerrymandering, as the *Harvard Law Review* alleges,[f] then it is an example of hijacking.

Kidnapping. Drawing two incumbent candidates into the same district so they must run against each other. Also in 2000, the Michigan Republicans' redistricting plan moved the district boundaries of Democratic members of the U.S. House John Dingell and Lynn Rivers, resulting in a primary election in which the two ran against each other. John Dingell, who had served 23 terms in the U.S. House by that time, beat out Lynn Rivers, an eight-term member. If Michigan Republicans gerrymandered these districts, as the Harvard Law Review implicates,[f] then the technique that was used is kidnapping.

Eliminating Competitors. Shifting district boundaries to move an incumbent's potential competitor to another district. In 2000, 13-term incumbent Roger Green narrowly defeated his opponent in the primary election for New York's 57th legislative seat. The redistricting that took place in New

York after the 2000 census changed the boundaries of the district such that Green's competitor no longer lived in the district, a change that many believe to be the result of gerrymandering. In 2004, Green had no primary election opponent. Two years later, Green's challenger moved back into the 57th legislative district and defeated Green in that year's primary election, going on to win the general election as well.[g]

Evidence

Although there is no single measure to prove a district has been gerrymandered or to estimate the extent of gerrymandering, some point to characteristics such as irregular district shape, political boundary breaks and skewed election results as helpful indicators. However, caution is necessary when using these measures as a basis for a gerrymandering accusation.

Irregular Shape. Gerrymandering that includes or carves out specific precincts, blocks, or houses may distort the shape of an otherwise compact district with smooth boundaries. Yet federal and state requirements often induce irregularity. Additionally, the last district that a redistricting entity draws and districts on a state's border tend to be irregularly shaped.[h] Unless the irregularity is excessive and correlates with a significant shift in the political makeup of the district's voters, as was the case with New York Assembly District 131, it is usually difficult to differentiate between gerrymandered and legitimate variation in a district's shape. What's more, today's redistricting software often makes it unnecessary to draw irregularly shaped districts in order to gerrymander desired voter compositions.

Political Boundary Breaks. For states that require preserving political boundaries, the number of boundary breaks may indicate the extent to which the redistricting entity gerrymandered the districts. However, as with shape irregularity, other federal and state requirements may induce political boundary breaks. What's more, while gerrymanders may cross political boundaries in order to include or exclude specific areas, doing so may not be necessary. Before the 2000 redistricting, Michigan congressional districts had 17 county and 15 municipal boundary breaks. After the 2000 redistricting, which resulted in a plan that some Republicans have admitted was gerrymandered,[i] congressional districts had just 11 county and 14 municipal boundary breaks.[j]

Election Results. When a political party's share of legislative seats is significantly greater than the party's share of votes, there are often allegations of gerrymandering. For example, between 2002 and 2010, Democrats received 49.5 percent of the votes for seats in the Michigan Senate but received just 39.5 percent of the Senate seats; similarly, Democrats received 52.0 percent of the votes for seats in the Michigan House but received only 49.3 percent of the House seats.[k] Many people have since used these statistics as evidence that Republicans gerrymandered the 2001 redistricting plan.

There are two reasons why this type of argument might not hold. First, combining single-member districts with majority voting naturally results in representation that does not align with the distribution of votes. For example, consider a hypothetical election in which Party A receives 41 percent, 51 percent, and 61 percent of votes, respectively, in three separate districts that have not been gerrymandered and that have an equal number of voters and equal populations. Party A has won two of the three districts (67 percent) but just 51 percent of the vote. The disproportionate representation is not the result of gerrymandering but rather the result of the electoral system. Second, according to researchers at the University of Michigan and Stanford University, "...Urban districts tend to be homogeneous and Democratic while suburban and rural districts tend to be moderately Republican. Thus in Florida and other states where Democrats are highly concentrated in cities, the seemingly apolitical practice of requiring compact, contiguous districts will produce systematic pro-Republican electoral bias."[m] This means that redistricting entities' commitment to upholding state requirements, not gerrymandering, may cause disproportionate election results.

Another measure that some point to as evidence of gerrymandering is a lack of district turnover. Such accusations usually center on the frequency with which voters of a given district elect a representative from the opposite political party as that of the individual currently holding the office. The argument is that a pattern of districts that do not turn over is evidence of gerrymandering, but evidence does not support such a hypothesis. Data show that gerrymandering may contribute to a lack of turnover, but its impact is relatively minor.[n]

Adjudication. Regardless of the evidence, political gerrymandering claims against redistricting plans that fulfill federal and state requirements are not justiciable because there are no "judicially discernible and manageable standards" for adjudication.[o] Neither the Equal Protection Clause nor the Voting Rights Act provides limits for the political considerations that states may take into account when redistricting.

Alleged Consequences

There is no reliable evidence to support arguments that gerrymandering reduces the number of competitive districts, increases political polarization, fosters political corruption, discourages participation in elections, or erodes public trust in government. However, this does not mean that there are no consequences; it just may be too difficult to isolate the effects of gerrymandering to measure them.

Competitive Districts and Political Polarization. There is a theory that gerrymandering creates less competitive districts and that a lack of competitiveness encourages extreme political candidates because they do not need to appeal to centrist swing voters. While there is evidence that congressional elections are historically uncompetitive and

members of the U.S. House and Senate are increasingly politically polarized, there is no evidence that the two issues are linked or that gerrymandering is the cause of either issue. The trend of increasing congressional political polarization began well before the trend of noncompetitive elections, meaning that gerrymandering noncompetitive districts did not create the polarization problem. Rather, researchers from Princeton University, the University of California, and New York University have shown that increasing polarization is largely a result of the fact that, "…For a given set of constituency characteristics, a Republican representative compiles an increasingly more conservative record than a Democrat does." They also show that "Some of the increase in polarization is due to an increase in the congruence between a district's characteristics and the party of its representative."[p] Similarly, Thomas Marin of the Brookings Institution has found gerrymandering's role in electoral competition to be minor, if not insignificant. Rather, he blames the alignment of political parties with ideology, residential patterns of political segregation, and a lack of bipartisanship in legislative voting.[q]

Corruption, Voter Turnout, and Public Trust. There appears to be no evidence that gerrymandering affects corruption, voter turnout, or public trust either positively or negatively.

The lack of statistically significant evidence demonstrating the effects of gerrymandering may have to do with its self-limiting nature as well as the difficulty in measuring such effects. First, in order to gerrymander a redistricting entity must weaken safe districts to shift voters to other districts.[r] In doing so, they increase the risk of losing formerly safe districts. Term limits compound this challenge because they make it difficult to anticipate the optimal boundary lines given that future candidates are unknown. Second, it may be difficult to discern gerrymandering let alone separate the effects of gerrymandering from other factors such as political scandals. Despite the lack of evidence for more sensational effects, gerrymandering at minimum affects representation through the choices that voters face and therefore undercuts the legitimacy of our democracy.

Recommendations

Michigan's constitutional legislative redistricting rules are invalid; its statutory guidelines are not binding for congressional redistricting; and it is uncertain whether its legislative redistricting guidelines are binding. Unless valid constitutional provisions are adopted, redistricting will continue to occur in a legislatively-devised and legislatively-adjustable framework. To replace Michigan's existing constitutional language requires a legislature-referred or voter-initiated proposal or revision at a constitutional convention. Given that the voters just rejected the calling of a constitutional convention, it would be prudent at this time for a constitutional amendment to be introduced to amend Sections 2 through 6 of Article IV of the 1963 Michigan Constitution, and PA 463 of 1996 should be statutorily amended to fully implement the new constitutional provisions.

A constitutional amendment should be introduced to amend Sections 2 through 6 of Article IV of the 1963 Michigan Constitution, and PA 463 of 1996 should be statutorily amended to fully implement the new constitutional provisions.

Redistricting Commission

Article IV, Section 6 of the Michigan Constitution creates an independent, party-appointed Commission on Legislative Apportionment and assigns it the responsibility for drawing legislative districts. However, the Michigan Supreme Court invalidated the Commission as part of its 1982 ruling that invalidated all the constitutional redistricting provisions in Sections 2 through 6. Moreover, not once during its 18-year existence did a majority of the 8-member Michigan Commission on Legislative Apportionment agree on a redistricting plan; following the 1960, 1970, and 1980 censuses, the Commission split along partisan lines.

While the 1961 state Constitutional Convention did much admirable work, the problems with the Commission on Legislative Apportionment were apparent immediately. The primary challenge was that, with an even-numbered membership, there was no way to resolve deadlock. The following recommended provisions suggest a return to an independent commission in such a way as to maintain the strengths and correct for the key weaknesses of the Commission on Legislative Apportionment.

- **Recreate a commission to conduct redistricting.** The commission should comprise an odd number of members, with the majority and minority leaders of each chamber appointing two individuals and the appointed individuals electing a member who is unaffiliated with any political party. Just as is currently provided in Article IV, Section 6, "Vacancies shall be filled in the same manner as for original appointment." Most states that use a commission for redistricting employ an odd number of members, which helps avoid deadlock, and sizes range from 3 to 18.[65] The commission should conduct both congressional and legislative redistricting.

- **Maintain the safeguard for the representation of a prominent third political party.** In describing the composition of the Commission on Legislative Apportionment, Article IV Section 6 expands the commission to accommodate representation of a third political party if that party becomes significant, as evidenced by a gubernatorial candidate of the party receiving more than 25 percent of the most recent general election vote. Such a provision should be preserved under a constitutional amendment. However, rather than allowing the third political party to appoint the additional four commissioners, as the Michigan Constitution now states, the amendment should assign the responsibility to the gubernatorial candidate.

- **Maintain the requirement for geographic diversity among commissioners.** Article IV, Section 6 also requires that Commission of Legislative Apportionment members reflect the diversity of the state, creating a commission that comprises an equal number of representatives from each region of the state. A constitutional

amendment should similarly strive for geographic diversity among commissioners.

- **Maintain the requirement that commissioners be registered voters.** This standard helps to ensure that commissioners are, at the most basic level, active members of their democracy and have a vested interest in an unbiased redistricting plan. Article IV, Section 6 already states that the membership of the Commission on Legislative Apportionment comprises electors. This language should be adapted to the new commission and preserved under a constitutional amendment.

- **Maintain restrictions on who can serve on the commission**, to minimize potential conflicts of interest. Article IV, Section 6 prohibits government officers and employees, other than notaries and members of the armed forces reserve, from serving on the Commission on Legislative Apportionment and states that commissioners will be ineligible for election to the legislature for two years after their commission appointment. Michigan's restrictions are relatively minor compared to the strong standard that, for example, California sets. A Michigan constitutional amendment should include, at minimum the existing constitutional language. The state may wish to consider more stringent language. California, which has particularly strong language, prohibits among other things, members of its commission from being current or recent elected officials; candidates for public office; officers, employees, or paid consultants of political parties or of certain political campaign committees; registered lobbyists; legislative staff; and blood or legal members of certain public officials' immediate families.[66] California also prohibits members of its commission from holding elective of-

fice for ten years from the date of appointment and from holding appointive public office, serving as staff to certain federal and state officials, and registering as a lobbyist for five years from the date of appointment.[67]

- **Require the legislature to fund the commission before appointing commissioners.** To minimize the opportunity for the legislature to control the commission using its appropriation power, Arizona and California require that their legislatures fund their redistricting commissions before appointing commissioners.[68] Michigan should include similar language in its Constitution. The California Government Code requires, in each year ending in nine, that the governor's budget and the subsequent legislative Budget Act include "sufficient" funding, which is described in more detail, for the state's redistricting commission; it also enables the legislature to "make additional appropriations in any year in which it determines that the commission requires additional funding in order to fulfill its duties."[69]

> The funding of the commission and appointment of commissioners should occur in the year of the federal census to minimize opportunity for the legislature to control the commission.

- **Require appointment of commissioners by December 31 of the year of the federal decennial census.** Having a deadline for the appointment of commissioners ensures that the commission will have sufficient time to elect a member who is unaffiliated with any political party before Michigan receives its redistricting data. In doing so, the commission will be able to hit the ground running when it receives the data. California's deadline of December 31 of each year ending in zero[70] is ideal because this is the deadline for the U.S. Census Bureau to deliver to the President the state resident and apportionment populations.

- **State that the commission's plan is final.** A constitutional amendment should include explicit language stating that the plan that the commission approves is final and is not to subject to legislative or gubernatorial approval. Legislators and the governor, like the rest of the public, should have opportunities to provide input before plans are developed and feedback on the proposed plan, without compromising the commission's independence. Legislators and the governor, like other Michigan electors, have legal standing to challenge final plans under Article IV, Section 6. This language should be preserved under a constitutional amendment. Florida and North Carolina use a similar approach.[71]

Frequency

Permit redistricting to occur only after the federal decennial census. A constitutional amendment to improve Michigan's redistricting process should build on the foundation that Michigan law currently provides. PA 463 of 1996 requires that legislative redistricting occur once every ten years, beginning November 1, 2001, to coordinate with the decennial census. PA 221 of 1999 states the same requirement for congressional redistricting, although the Michigan Supreme Court ruled in 2002 that this act is not binding.[72] A constitutional amendment should make it clear that redistricting should occur only once every ten years.

Process

Maintain the description of redistricting responsibilities, procedures, and timeline. The redistricting process described in Article IV, Section 6 should be retained. It identifies the secretary of state as the Commission on Legislative Apportionment's secretary and technical services provider, empowers the Commission to elect a chairman and make its own procedural rules, states that commissioners should be compensated as defined by law, requires a majority of commissioners to support all final commission decisions, and lays out a timeline for the redistricting process.

Transparency and Public Engagement

Although the Michigan Open Meetings Act requires that public bodies provide adequate notice of upcoming meetings and make available recordings and transcripts of hearings, redistricting provisions should go further in ensuring transparency and offering meaningful opportunities for interested parties and the public to participate. A constitutional amendment should include language stating that the Commission will:

- **Hold public hearings around the state to secure public input;**
- **Share information about the tools and processes the commission will use;**
- **Share the proposed plan and hold public hearings on the proposed plan;** and
- **Leave sufficient time between the end of the public comment period and the plan's due date in order to revise the plan based on public feedback.**

> Redistricting provisions should ensure transparency and offer meaningful opportunities for interested parties and the public to participate.

While no state requires this exact bundle of transparency and public engagement provisions, former Congressman John Tanner of Tennessee introduced a bill last year in the U.S. House, the Redistricting Transparency Act of 2010, to require states to improve their congressional redistricting processes. The bill provides some sample language that may be useful to Michigan policymakers as they draft statutory language to provide for the implementation of the state's congressional and legislative redistricting processes. It requires soliciting public input for 60 days and holding at least one public hearing prior to the initial development of a plan, making redistricting data publicly available, offering opportunities for public comment on the proposed plan, and leaving at least ten days between publishing and adopting the final plan.[73]

Maintain redistricting proceedings as public record, and require the publication of the final plan. Michigan's existing constitutional language suffices in fulfilling this provision; it should be maintained. Article IV, Section 6 requires that the secretary of state keep a public record of the proceedings of the Commission on Legislative Apportionment and that the final plan be published within 30 days of the Commission adopting it.

Legal Standing

Maintain protection of electors' right to challenge redistricting plans. Article IV, Section 6 empowers, within 60 days of a redistricting plan's publication, any elector to request a Michigan Supreme Court review of the final plan. If it finds that the plan is unconstitutional, the Court may remand the plan to the Commission on Legislative Apportionment for further action. This provision should be adapted to the new commission and preserved under a constitutional amendment.

Standards

Although there is variation between Michigan's constitutional and statutory redistricting language as well as between Michigan congressional and legislative redistricting guidelines, many (but not all) of Michigan's existing requirements should be included in a constitutional amendment. Although invalid and potentially not binding, respectively, the Michigan Constitution and PA 463 of 1996 include legislative redistricting rules for maximum population variances; preserving political boundaries; and contiguous and compact single-member districts. While not binding, PA 221 of 1999 establishes guidelines for drawing Michigan's congressional districts. The guidelines comprise provisions for strict population equity, upholding the Voting Rights Act, preserving political boundaries, contiguity, compactness, single-member districts, and numbering districts. Congressional redistricting guidelines have never been in the Michigan Constitution. However, because of the importance of having binding congressional redistricting standards, they should be.

In general, requirements should be limited in order to provide the commission flexibility in drawing districts that meet the most important criteria and purposeful in order to avoid unintended consequences. The guidelines listed here do not include requirements like compactness and adherence to geographic boundaries because of the arbitrary nature of these requirements and the subsequent bias that such requirements may foster. Moreover, they do not include criteria regarding individual residences because of the difficulty of enforcing such a requirement. Finally, they do not include a requirement for district competitiveness because of the lack of evidence demonstrating that it is possible or helpful to engineer competitive elections.

CRC recommends new standards comprising provisions for population equity, single-member districts, contiguity, adherence to political boundaries, and preserving communities of interest.

- **Require strictly equal populations among congressional districts, and limit legislative districts' population variation to five percent above or below the ideal district size.** Existing technology and congressional districts' large sizes make it relatively easy to create districts with little to no population variation. Thus, congressional districts should have strictly equitable populations, as PA 221 of 1999 prescribes. Article IV, Section 3 currently allows legislative district populations to vary by up to 25 percent above or below the ideal district size, which is almost certainly is a violation of the federal Constitution. Legislative districts should maintain populations that vary no more than five percent above or below the ideal district size, as PA 463 of 1996 states.

- **Maintain the requirement for single-member districts.** Federal law requires single-member congressional districts. A Michigan constitutional amendment should require single-member legislative districts, preserving language already in Article IV, Sections 2 and 3.

- **Maintain the requirement that districts be contiguous.** The existing language in Article IV, Sections 3 and 4 is effective in clearly communicating this requirement. It should be extended to apply to congressional districts as well.

- **Maintain the requirement to adhere as close to political boundaries as possible.** Article IV, Section 3 prescribes for districts "adhering to county lines" and directs districts to "follow city and township boundaries where applicable." At minimum, this language should be preserved under a constitutional amendment. Statute should be used to implement this provision. PA 463 of 1996 provides a more detailed description of how to preserve boundaries but does not apply to congressional districts. Additionally, PA 116 of 2001 defines one way of counting the number of political boundary breaks; language like this is necessary in order to implement a constitutional requirement for preserving political boundaries, particularly because counting boundary breaks can often be contentious.

- **Preserve communities of interest.** A constitutional amendment could also provide that the redistricting commission should account for communities of interest in its work. Details of what constitutes a community of interest should be provided in state law, not the constitution. PA 221 of 1999 includes language requiring that the Voting Rights Act be upheld; this act is not binding. Arguably communities of interest would extend beyond ethnicity to economic and social interests.

Conclusion

Redistricting is fundamental to democracy because it matches potential candidates to constituencies, setting the parameters for representation. As such, detailed policies contained in the U.S. and state governments' fundamental laws should govern redistricting. The U.S. Constitution mandates equal representation among districts, and the Voting Rights Act requires that states provide minority groups an equal opportunity to elect candidates of their choice. While most states have secondary guidelines to constrain the redistricting process—such as that districts adhere to political boundaries, preserve communities of interest, and be contiguous and compact—Michigan remains without even the most basic guidelines for congressional redistricting and with precarious guidelines for legislative redistricting.

With Michigan having lost population for the first time since the U.S. government began the census and significant population shifts throughout the state redistricting will result in significant changes to the maps of Michigan's legislative and congressional districts. A clearly defined and transparent process etched into Michigan's Constitution is the best solution for improving Michigan's redistricting process.

Each of the Michigan Constitutions has contained specific legislative apportionment provisions. This suggests that voters have deemed it unwise to leave the matter to the discretion of any branch of state government, including the judiciary. Given the historical preference of Michigan voters, and due to the fundamental importance of redistricting, state constitutional provisions specifying what entity should bear responsibility for the process and what standards should govern the process would seem a prudent recourse. A new redistricting process designed to produce districts that are drawn in conformance with specific standards is imperative to ensure the unbiased and effective representation of Michigan citizens.

Appendix B
Method of Equal Proportions

Under the Method of Equal Proportions, Congress assigns seats based on states' priority values, a state's population divided by the square root of the product of the number of seats up to that point in the reapportionment process and the number of seats if it were to receive the next seat. The state with the highest priority value in each round receives the seat, until all 385 seats are assigned.[75] For example, if a state has a population of 40 million, it's priority value for the 51st seat is $\frac{40{,}000{,}000}{\sqrt{1*2}} = 28{,}284{,}271.25$. If this value is the highest among all states, it will receive the 51st seat and have two seats. If it receives the 51st seat, its priority value for the 52nd seat will decrease to $\frac{40{,}000{,}000}{\sqrt{2*3}} = 16{,}329{,}931.62$; if not, its priority value for the 52nd seat will remain 28,284,271.25.

Count Question Resolution

Time Frame:

- Issues can be submitted: June 2011 – June 2013
- Issues should be resolved by end of 2013.

Impact:

Changes WILL:

- be official census counts
- affect federal funding and program eligibility
- affect state revenue sharing
- be reflected in annual population estimates
- be suitable for all official purposes
- be published in an "Errata" document

Count Question Resolution

Impact:

Changes WILL NOT:

- affect redistricting files or any other census products published online or by other means (aside from Errata document)
- be available by age, race, sex, or other characteristics

Count Question Resolution

Types of Correctible Error:

- Boundary errors
- Geocoding errors (living quarters assigned to wrong block)
- Processing errors

  Corrections will "add or delete specific living quarters and people associated with them, identified during the census process but erroneously [considered] as duplicates or excluded due to processing errors."

Testimony of Melvin Butch Hollowell
Legal Counsel, Michigan Legislative Black Caucus

Redistricting Committee

Michigan State Senate

May 11, 2011

Good afternoon Mr. Chairman. I would like to take this opportunity to thank you and the Members of the Senate Redistricting Committee for inviting me to provide testimony to this body on the application of the Voting Rights Act of 1965 (42 U.S.C. Sections 1973-1973aa-6) to the state's legislative redistricting process.

I am appearing today in my capacity as Counsel to the Michigan Legislative Black Caucus, which represents twenty two (22) Members of the Michigan State Legislature. I would like to acknowledge Caucus Chair Fred Durhal, as well as Senators Bert Johnson and Virgil Smith, Members of this Committee, and my co-counsel in this matter, Alan Canady.

As an overview, the newly-released census figures indicate that America is a more diverse nation. And likewise, Michigan - though smaller - is a more diverse state. While Michigan's overall population declined over the past 10 years (the only state to lose population) its minority population percentage increased significantly during this period, from 21.4% in 2000, to 23.4% in 2010.

The position of the Michigan Legislative Black Caucus is that these significant gains in the state's minority population should be reflected in the maps that are drawn in this redistricting process.

These gains in diversity look different than they did in the past. More people of color now live in the suburbs and in West Michigan. No longer is there just a concentration in our city centers. Voters of color moved across the street and across the state.

For example, between 2000 and 2010 there was a 389% increase in the number of African-Americans living in Warren, a 496% increase in Eastpointe, and a 260% increase in Melvindale. Western Michigan saw similar gains. In Grand Rapids the Hispanic population increased by 13.3%. In Wyoming the Hispanic population increased 109% and the African-American population increased by 48.4%. The same is true in Kentwood, which saw a 135% increase in its Hispanic population, and an 80% increase in the number of African-American residents.

All of this has implications under the Voting Rights Act. The 1965 Voting Rights Act was passed by Congress and signed into law by President Lyndon B. Johnson just weeks after the attacks on men women and children, as they crossed Selma, Alabama's Edmund Pettis Bridge, in March of 1965, to peacefully protest laws aimed at disenfranchising African American voters. This law, a cornerstone of the American civil rights movement, is credited with giving millions access to the ballot and full participation in the democratic process.

In 2006 the Act was re-authorized for 25 years (until 2031) by Congress and signed into law by President George W. Bush. I was in attendance at the NAACP National Convention in Washington, D.C. that day, when President Bush made the announcement to those of us gathered in the Hall at the Washington Convention Center, that he would be signing the landmark legislation.

Section 2 of the Act is at the core of protecting minority voting rights in the redistricting process. In essence, Section 2 provides that minority voting strength is not to be diluted in the drawing of district boundaries. Based on the totality of circumstances, a Section 2 violation arises if it can be shown that district lines were drawn to limit the chances of minorities to elect candidates of their choosing. The 1982 Amendments to Section 2 provide that the courts are to strike down district lines that are drawn with either a racially discriminatory intent or effect. (42 U.S.C. Section 1973(a)(2000 ed.)).

As a general rule, minority vote dilution occurs when African-Americans are put in a district where the majority votes as a bloc to cancel out or minimize the effectiveness of minority voters.

Section 5 of the Voting Rights Act, which is known as the "Pre-clearance" provision, is also extremely important in the redistricting process. This section of the Act applies to certain states with a history of discrimination, called "Covered Jurisdictions," and provides that in these Covered Jurisdictions, any major changes to laws which affect voting rights, such as the drawing of redistricting maps, must be submitted to the Attorney General of the United States for his or her prior approval. Michigan has two such Covered Jurisdictions: Clyde Township in Allegan County and Buena Vista Township in Saginaw County.

The State of Michigan initiates the Section 5 Pre-clearance process by submitting a letter notifying the Attorney General of the proposed change, and requesting approval of same. The United States Department of Justice then conducts a review process which examines the proposed changes and allows for public comment and input, before making a determination of whether the proposed changes are consistent with the Voting Rights Act.

In this process, the burden is on the Covered Jurisdiction to show that the new law does not have a "retrogressive" or discriminatory effect on minority voting rights. The Attorney General has sixty (60) days to respond to the request. If the request is denied, the proposed changes are barred from taking effect. There is no

appeal. The other option available to the Covered Jurisdiction is to request a judicial review of the proposed changes from a special panel of the United States District Court for the District of Columbia.

At this point, I thought it might be helpful to address a few of the questions that were posed to myself and co-counsel during the House Redistricting Committee's April 26 hearing on this matter.

Question: Is there a legal requirement that the Legislature create majority African-American districts?

Section 2 of the Voting Rights Act includes a requirement that African-American voting strength not be diluted in the drawing of district lines to ensure that minority voters have the opportunity to elect a candidate of their choosing. Furthermore, when there has been an increase in the minority population, as we have seen here in Michigan, the courts have consistently invalidated map boundaries which are drawn to "pack" too many voters of color into one district, and they have invalidated map boundaries that are drawn to unfairly divide voters of color into separate districts: a practice which is called "cracking."

Question: Is the Legislature required to create as many majority African-American districts as possible?

The United States Supreme Court in *Miller v. Johnson*, 515 U.S. 115 (1995) ruled that race cannot be the pre-dominant factor in drawing district boundaries. However, the High Court has also ruled, in *Shaw v. Reno*, 509 U.S. 630 (1993) that race is an important factor, among other factors, in the drawing of district maps, so long as it is not the pre-dominant factor. The bottom line is that the Michigan Legislature *cannot not* consider race when drawing district boundaries in light of the Voting Rights Act.

Some of the race-neutral factors which can and should be considered are (1) communities of common interest, (2) political party affiliations, (3) connections to faith-based institutions, (4)socio-economic levels, (5) networks of community-based organizations, block clubs, and neighborhood associations, (6) ethnic communities, (7) cultural associations and interests, (8) common interests in legislation or issues, and (9) as far as the City of Detroit goes, the need to preserve a strong voice for the largest city in the state – with a population of 713,777 - as a matter of public policy.

Question: What percentage of African-Americans should a district have to give minorities a reasonable chance to elect a candidate of their choice?

While it is difficult to give a precise percentage, at least three (3) factors must be employed: (1) The percentage of African-Americans within the proposed district, (2) the percentage of African-American registered voters in the proposed district, and (3) the voter turn-out rates in the proposed district. If registration levels and historic turn-out rates are low, the percentage above fifty percent (50%) will need to be adjusted up-ward. As a practical matter, in the neighborhood of sixty percent (60%) is probably close, though the state will need to consult with statistical experts.

Question: Where in the state, other than Detroit, can majority-minority districts be created?

Outside of the City of Detroit and its adjacent suburbs with significant African-American populations, so-called "Opportunity Districts" can be drawn in Pontiac, Flint, Saginaw, and Grand Rapids.

Question: State law says that county, city and township boundaries should not be broken. Is the creation of majority African-American districts a justification for breaking political subdivision boundaries?

Yes. The creation of majority-minority districts is a justification under the Voting Rights Act where supported by population. The requirements of Federal law always trump state law requirements like contiguity (adjacency), political boundaries and compactness.

Fortunately, in Michigan there is no conflict in light of the provisions in our state's very progressive redistricting statute. MCL Sections 3.54(c) and (d) specifically requires the application of the Voting Rights Act, and the equal protection clauses of the XIV Amendments to the Federal and state constitutions. With the exception of California, which has its own Voting Rights Act, and New York which has excellent voter protections, Michigan's statute is fairly unique in the country.

Question: Are there any parts of the state where Hispanic or other minority districts be created?

Yes. There is the potential for such districts to be created in Southwest Detroit, Dearborn, Flint, and Grand Rapids.

Question: Is evidence of racial bloc voting necessary before majority African-American districts can be created?

No. Not at the map-drawing stage that we are in presently. Majority African-American districts can be created as a reflection of the African-American population.

Mr. Chairman, this concludes my testimony. And again, on behalf of the Black Caucus, thank you for the opportunity to address the committee.

ACLU
AMERICAN CIVIL LIBERTIES UNION of MICHIGAN

Senate Committee on Redistricting
May 25, 2011

The ACLU of Michigan has a long-held belief that the opportunity to cast a meaningful and effective vote should extend to all citizens in Michigan, and we believe the Michigan Legislature should strive to preserve the voters' right to fairly elected representation. Our position is that the denial or dilution of political representation violates the constitutional principles of political fairness and equal protection.

Michigan's citizens expect electoral mechanisms will enable groups of voters to have a realistic prospect of electing candidates of their choice in rough proportion to the group's size and prominence in the electorate. Electoral mechanisms that compromise the ability of groups to share in the exercise of political power violate the spirit of the U.S. Constitution.

Given these constitutional concerns, the ACLU-MI whole heartedly supports efforts to protect fair representation for ethnic and racial minorities through the creation of majority minority districts. Since single member districting is sometimes unable to provide sufficiently diverse representation in elected bodies, we believe that alternative voting systems and other preferential voting mechanisms may enhance such diverse representation. Statutory barriers to the adoption of such alternative systems should be removed, and the use of these systems should be adopted where appropriate.

As an organization dedicated to protecting the civil liberties of all Americans, the ACLU of Michigan supports legislative efforts to protect the rights of minority voters during the redistricting process. During the debates over redistricting lines and maps we urge that support legislation for congressional and state legislative redistricting require the following:

1. Redistricting plans to be available on the Legislature's web site for 30 days before passage.
2. That each chamber holds at least two committee meetings to receive testimony about the plan.
3. That the Legislature holds at least four public hearings around the state to allow direct comment by the public.
4. That the Legislature provides a statement for each district explaining how the boundaries were drawn and how the district has been changed.

These important changes to state law would appropriately increase the role of all constituents in determining how their community will be defined. With so much at stake, it is critical that Michigan residents have a voice in this important part of our democracy.

Senate Redistricting Committee
State Capitol
Lansing, Michigan

Dear Chairman Hune and Committee Members:

I am writing to request that the committee give consideration to two fundamental points in this year's redistricting process.

First, make your actions as transparent as possible. When you believe you have a sound redistricting plan, publish your proposed maps and allow the citizens of this state to comment on them and suggest improvements to your plan.

Secondly, make competitiveness a desirable criterion, when you can, in drawing district boundaries. Competitiveness allows changing voter sentiments to find expression in changing legislative representation. That serves democracy in a way that partisan "packing" of districts does not.

Thank you for your consideration. I am sure all Michigan's citizens hope your work will nurture democracy in our fair state.

Sincerely,

Richard L. Robinson

Mr. Chairman, members of the Committee, thank you for the opportunity to testify today. My name is Jeff Guilfoyle and I am president of the Citizens Research Council of Michigan. With me is Brittany Galisdorfer, CRC fellow, and author of our recent work on redistricting. CRC is a nonprofit nonpartisan public affairs research organization dedicated to improving government in Michigan.

Yesterday, we published a report titled *Congressional and Legislative Redistricting Reform* which outlines our recommendations for changes that we believe should be made to Michigan's redistricting process.

Article IV, Sections 2 through 6, of the Michigan Constitution outline a process for legislative redistricting. However, these provisions were invalidated by the Michigan Supreme Court in 1982 because one provision violated the Equal Protection Clause of the U.S. Constitution and the remaining provisions were not severable from this section.

We believe that the absence of constitutional redistricting language has left Michigan with a process that is fundamentally flawed. Without a constitutional framework, the legislature has a relatively free hand in the redistricting process. Because one legislature cannot bind the next, each time Michigan redistricts, there is uncertainty regarding how the process will proceed. In addition, sanctioning an approach without standards, which we do by not adopting a permanent, constitutional structure, raises questions about the integrity of Michigan's democratic process.

We are recommending that as part of this year's redistricting effort the legislature place language on the 2012 ballot that would codify a redistricting process in the Michigan Constitution. We recommend that this Constitutional language do the following:

- Recreate a redistricting commission
- Limit redistricting to once per decade
- Describe the appropriate redistricting procedures and timeline
- Increase transparency and public engagement
- Protect electors rights to challenge redistricting plans
- Minimize population variance among districts
- Ensure contiguous single member districts
- Create district boundaries that adhere to political boundaries to the greatest extent possible, and
- Protect communities of interest.

We recommend the recreation of the redistricting commission, both because we feel it is a best practice, and because of its inclusion in Michigan's 1963 Constitution, meaning it was the process that elected delegates to Michigan's Constitutional Convention felt would be most appropriate for Michigan.

Adding these provisions to the Michigan Constitution will help to minimize bias and increase transparency in the redistricting process. Valid and binding constitutional language will help to ensure the integrity of the redistricting process.

We have provided you with copies of our report, which provides additional detail on these recommendations. Thank you for allowing us to testify today.

Michigan Citizens' Redistricting Competition 2011

TESTIMONY OF PROFESSOR JOCELYN BENSON, ESQ.
FOUNDER AND CEO, MICHIGAN CENTER FOR ELECTION LAW
DIRECTOR, MICHIGAN CITIZENS' REDISTRICTING COMPETITION
BEFORE THE MICHIGAN SENATE COMMITTEE ON REDISTRICTING AND ELECTIONS
MAY 25, 2011

Good afternoon. I would like to thank the Senate Committee on Redistricting and Elections for holding this hearing and for inviting me to present testimony this morning.

I am here today in my capacity as the Founder and CEO of the Michigan Center for Election Law, and as the Director of the Michigan Citizens' Redistricting Competition.

Michigan Citizens' Redistricting Competition[1]
The 2011 "Michigan Citizens' Redistricting Competition" is a nonpartisan project of the Michigan Center for Election Law and Administration, in partnership with the Michigan Redistricting Collaborative (which includes groups such as Common Cause, the League of Women Voters, and Michigan Nonprofit Association).

Our concern is, simply, that the current process has led to increased gerrymandering, and has allowed political parties to increase their majorities and limit competition, which is the foundation of a healthy functioning democracy.

Our hope is that, through providing tools for any Michigan citizen to craft and design their own redistricting maps for Congressional or Michigan legislative districts, we will help to provide citizens with a meaningful voice in the 2011 redistricting process. We also hope to demonstrate that an open, transparent redistricting process based on objective criteria and citizen input can produce fair legislative districts in Michigan.

This past month, 2011 "Michigan Citizens' Redistricting Competition" offered any Michigan citizen the tools and opportunity to produce potential district maps for Michigan's 14 Congressional Seats, or Michigan's state senate or legislative seats. The maps were then scored based upon objective criteria, such as how well they keep county and city residents in one district or how close each district comes to having the same number of people. We received over 200 entries, and on Monday the top scoring plans were submitted to the State House and to this Senate committee for consideration. I have included electronic copies of those plans in my testimony before this committee today, and we will be posting these plans online shortly.

[1] Attached please find several news articles describing the competition, including an article posted by a contributor to the Detroit News' Conservative Website, "The Michigan View."

I developed the idea after being inspired by the former Ohio Secretary of State, Jennifer Brunner, who held the first competition of this kind in 2009. Information about that competition can be found at www.ohioredistricting.org. More recently, Christopher Newport University and the Public Mapping Project sponsored the Virginia College and University Legislative Redistricting Competition earlier this year, which invited college student teams to draw legislative lines for the Virginia House of Delegates, Senate of Virginia, and federal congressional lines for the House of Representatives.

For our competition here in Michigan, citizens were invited to visit http://www.michiganredistricting.org, enter some basic information and begin drawing their maps. The site provides a variety of mapping tools, as well as population information and legal guidance to help each entrant develop fair, legal maps.

The entrants used redistricting software hosted online by the Midwest Democracy Network and developed by George Mason University Professor Michael McDonald and the Public Mapping Project. To learn more about the Public Mapping Project, contact Dr. Michael McDonald (mmcdon@gmu.edu) or visit www.publicmapping.org.

Judges and Judging Criteria

A nonpartisan panel of seven judges developed the criteria to evaluate and score the plans, based upon the criteria used in the aforementioned competitions in Ohio and Virginia. The seven judges are:

- Jowei Chen, Assistant Professor of Political Science, University of Michigan
- Kristen Clarke, Esq. Co-Director of Political Participation Project, NAACP Legal Defense and Education Fund
- Marcia Johnson-Blanco, Esq., Co-Director of Voting Rights Project, Lawyers Committee for Civil Rights
- Kurt Metzger, Director, Data Driven Detroit
- Anthony Salciccioli, Teacher, Clarenceville Public Schools & President-Elect, Michigan Council on Social Studies
- Jeff Williams, Chief Executive Officer, Public Sector Consultants
- Hal Ziegler, Former Republican State Senator, Michigan State Senate

The panel developed the following objective criteria for evaluating the plans. The criteria is based on federal and state law, as well as traditional redistricting principles that legal experts generally agree should be adhered to in the creation of objective and fair redistricting plans.[2] Top scoring plans were selected based upon how well they meet eight objective traditional redistricting factors:

1. Contiguity: is every part of every district connected?
2. Voting Rights Act Compliance: does the plan contain the required number of majority African American districts? (per the recommendation of the Black Legislative Caucus)
3. Equipopulation: Does each district have roughly the same number of people in it? (You can deviate up to 1% for Congressional districts, 5% for State legislative and Senate districts)

---

[2] See, e.g., The Brennan Center for Justice at New York University School of Law's comprehensive *Citizens Guide to Redistricting*.

4. Preserve existing city and county boundaries: Do districts avoid splitting counties and cities as much as possible?
5. Compactness: Is the shape of districts as close to a circle or square as possible?
6. Competitiveness: Does the map contain districts where there is a balanced percentage (i.e., close to 50%/50%) of Republican and Democratic voters?
7. Partisan Representation: Does the map create roughly the same number of majority Democratic and majority Republican districts?
8. Preserving Communities of Interest: Does the map make an effort to keep some smaller communities (college campuses, language minority populations) together in one district to preserve their voting strength?

In the weeks ahead, we will be posting the attached maps on our website and inviting any member of the public to comment and support certain plans. Out of that process we will select one winning Congressional and State Senate plan, and will submit to you further information about which of the plans before you today ultimately receives that honor.

This nonpartisan competition is a unique and meaningful opportunity for us as citizens to contribute to decisions that affect our future as Michigan voters. And it's important because, ultimately, voters should have the sole authority to choose their representatives, not the other way around.

Thank you again for the opportunity to testify before you today, and for inviting public comment on the redistricting process at this hearing.

Argument Opposing the 2011 Proposed Congressional Map

My name is Kevin Heine, and I am from Kentwood, Michigan. My partner is Tom Norton, and he's from Sand Lake, Michigan. We are representing the Independence Caucus of Kent County, a constitutionally conservative political action organization with a current membership of 498 registered voters and a leadership team of 9 people, the two of us included.

You might think that a conservative organization from Kent County would probably be speaking in support of the 2011 congressional district reapportionment, as proposed by the state legislature last Friday. You would be wrong.

A key element of the decennial redrawing of congressional district boundaries is that like communities should be kept together; that's the whole point of the "compactness" standard. While that standard is supposed to be co-equal with all of the other legal standards, in practice compactness often receives the short end of the stick during reapportionment, which is how the practice of gerrymandering has become institutionalized in redistricting legislation.

Governor Snyder made the point frequently during his campaign last year, and has said so frequently since, that the State of Michigan does not recover unless the City of Detroit recovers. However, when I look at this proposed map, I see the exact opposite. I look at the 9th, 12th, 13th, and 14th districts and I see the Michigan Republican Party telling the people of southeast Michigan that they don't count, that they're nothing but pawns to be used in a statewide game of political chess to the benefit of someone who isn't them.

At a total population of 713,777, Detroit just about rates its own congressional district, separate of the rest of Michigan. The city's about 7,800 people too many to meet the population standard, and a split would have to occur somewhere in order to provide Highland Park and Hamtramck with contiguity, but I fail to understand why the entirety of Wayne County is so dramatically misdrawn as to be subdivided among four congressional districts. I mean, since you're going to cut Detroit in two anyway, couldn't you at least have the decency to combine in the remainder of Wayne County, without creatively scrambling in a quarter of Oakland County while you're at it? I can see incorporating the Eight Mile corridor (of both Macomb and Oakland counties) if we're going to divide Detroit into a north district and a south district, but other than that, I cannot conceive of an honestly compact redraw that has more than three districts in Wayne County.

And it's not just in southeast Michigan where this problem occurs. I was born in Flint and raised in Oscoda; I can tell you from first-hand knowledge that Iosco County and Genesee County have virtually nothing in common with each other, yet they are now the north and south ends of the redrawn 5th District. The same concern applies to grouping Kent County and Calhoun County into the redrawn 3rd District. I currently live in the City of Kentwood, and I'm curious as to how we have enough in common with Holland and Muskegon that we rate being included in the redrawn 2nd District (which also cuts the Kent County voting population almost exactly in half).

Another key element of redistricting is that we should think at least ten years ahead when doing our district redraws. The proposed map goes to a great deal of trouble to protect every single incumbent currently sitting in Michigan's Congressional Delegation, with the exception that Peters and Levin are necessarily forced into a primary in 2012. But have we considered that most of the people currently representing Michigan in Congress will probably not be in office a

Argument Opposing the 2011 Proposed Congressional Map

decade from now? Why, instead of going out of our way to protect incumbents, are we not drawing districts in a way that encourages new people to prepare themselves as public servants?

I understand that a common interpretation of the Voting Rights Act is that we're supposed to draw minority-in-majority districts where possible. I say "interpretation" because I've read through the VRA a few times, and I don't see the "minority-in-majority" clause in there anywhere. For what my opinion is worth, I view a mindset that somehow requires us to fence people into voting districts according to their skin color as being exactly identical to segregation . . . by this we're essentially telling minorities (and especially blacks) that they're not capable of getting one of "their own" elected to Congress unless they have a numerical majority of voters in the district in question. How is that philosophy not racist on its face?

We don't usually think of it this way, but the voters of Michigan (including racial minorities) back in 2006 approved a state constitutional amendment that permanently outlawed racial segregation in this state. I realize that we do have to substantially comply with the VRA interpretation if it's practical to do so, and I'm pretty sure that any two given Detroit-based districts, no matter how they're drawn, are going to be minority-in-majority. But what I don't get is why we seem compelled to turn southeast Michigan into a spaghetti bowl, deliberately segregating people based on nothing other than the color of their skin, and then trot this garbage out as "proof" that we've protected minority voting access.

Are you going to attempt to convince me that we can't draw more compact congressional districts in southeast Michigan and still comply with the charade of allegedly protecting the minority vote? I am curious as to how you would explain that in a way that will make sense.

This map is telling the Michigan voters one thing: that the incumbents in Congress are afraid of the people they represent. That deliberately redrawing their fiefdoms to ensure their own incumbency is more important than honestly answering to the voters who put them into office.

And that leaves the question of why that's the message that we want to send.

Asian & Pacific Islander American Vote- Michigan

Written Testimony for the Michigan State Senate Redistricting & Elections Committee

Stephanie Chang, *President*, Asian & Pacific Islander American Vote – Michigan

June 22, 2011

Thank you for the opportunity to testify. My name is Stephanie Chang and I am the president of Asian & Pacific Islander American Vote – Michigan.

Asian and Pacific Islander American Vote - Michigan is a nonpartisan nonprofit 501(c)(3) organization that serves the Asian Pacific Islander American (APIA) community through civic participation, advocacy, and education. The APIA community includes Pacific Islanders and Native Hawaiians, South Asians, Southeast Asians, East Asians, multiracial Asians, and anyone who self-identifies as Asian.

As you know, the Census 2010 data showed that the APIA population is the fastest growing population in Michigan. Our state's APIA population grew by 34.9% from 2000 to 2010. In some cities, the APIA population more than doubled in that time span.

APIAVote-Michigan has closely monitored the redistricting process in several areas and actively participated in the county reapportionment process in Oakland and Wayne counties by submitting proposed maps and testimony. In addition, in Washtenaw, Kent and Macomb Counties, we submitted letters with comparison maps in order to educate reapportionment commissioners about key geographic areas in which the APIA population grew significantly between 2000 and 2010.

It was a great experience to participate in the reapportionment process in these counties. Our participation influenced the final map agreed upon by the commission in Oakland County and hope we were considered a significant voice in the other counties previously mentioned. It was because of the open and transparent process in some of these areas that we are able to fully participate.

APIAVote-Michigan is a proud member of the Michigan Redistricting Collaborative. Like our colleagues, we were glad to see that the House majority released proposed

redistricting maps prior to a conference committee this time around. We are also glad to see that some data is available to the public.

More time and information is needed to ensure that voters and all Michigan residents are able to look at information that matters to us in this redistricting process. For example, communities of interest like my own, the APIA community, would need more time to conduct a thorough analysis of how our demographic group is impacted by the proposed district lines.

In addition, additional racial demographic data should be added to the population data charts for each proposed district map. The current information available to the public only reveals racial demographic data for African American/Black populations and only for the majority minority districts. Information about Asian, Hispanic/Latino, Native American, and Native Hawaiian/Pacific Islander population counts and percentages for each proposed district should be made available.

This is a great opportunity to continue making redistricting an open and transparent process that all Michiganders can participate in. Today we join the other Michigan Redistricting Collaborative members in calling for:

- The posting of the plans with full detail on the legislature's website for 30 days before passage of legislation;
- Two or more committee hearings in each chamber to receive comment about the plans;
- Four or more public hearings around the state to allow a greater amount of public comment; and
- An official statement from the legislature about each district explaining why the proposed boundaries were drawn the way they were.

The November 1 deadline is still several months away, meaning that there is time to ensure that the best plan possible is adopted. I hope that this committee will consider these recommendations. Thank you for your time.

Asian & Pacific Islander American Vote- Michigan

Written Testimony for the Michigan Senate Committee on Redistricting

Sally Kim, Redistricting Project Coordinator, Asian & Pacific Islander American Vote – Michigan
May 25, 2011

Thank you for the opportunity to be here today and share some information with you as you make very important decisions about redistricting.

Asian and Pacific Islander American Vote - Michigan is a nonpartisan nonprofit 501(c)(3) organization that serves the Asian Pacific Islander American (APIA) community through civic participation, advocacy, and education. The APIA community includes Pacific Islanders and Native Hawaiians, South Asians, Southeast Asians, East Asians, multiracial Asians, and anyone who self-identifies as Asian.

As you may know, the Census 2010 data showed that the APIA population is the fastest growing population in Michigan. Our state's APIA population grew by 34.9% from 2000 to 2010. In some cities, the APIA population more than doubled in that time span. More detail about our state's APIA demographic is provided later in this testimony.

Our growing APIA communities should be kept geographically together to avoid vote dilution in areas of density and growth. APIA community members and voters deserve to be able to elect representatives that will be held accountable to our communities' needs and issues. In this testimony, I will describe why APIAs should be considered a community of interest.

We believe that redistricting can be done to empower voters to choose candidates they feel best represents them and their community; if done wrongly redistricting can result in politicians choosing their own voters and not feeling particularly responsible for other voters.

We hope this committee will keep our growing APIA communities in mind while drafting new maps, so that our communities can elect candidates that we believe best represent our shared interests and needs. As an organization dedicated to encouraging the APIA Michigan community to be informed, educated and engaged voters, we want to make sure our votes – our voices -- are counted. We urge this committee to keep APIA communities geographically together as much as possible during the redistricting process. We look forward to sharing proposed district maps with you in the coming weeks; these maps are in the process of being developed.

Our Community:

The U.S. Census Bureau released Michigan's Census 2010 data in March. We learned that the APIA community is the fastest growing population in Michigan, growing 34.9% between 2000 and 2010. The APIA community is also the fastest growing population nationwide, at 43%.

- Asian + NHPI alone 240,803
- Asian & NHPI multiracial only 52,963 (18% of total API population is multiracial)
- Asian + NHPI, multiracial together 293,766
- The highest APIA population is in Oakland County with 68,082 APIAs, followed next by Wayne with 46,319, Washtenaw with 27,237, and Macomb County with 25,242.
- The fastest APIA growth is in Macomb at 48.3%, Ingham at 41.25%, Oakland at 37%, Ottawa at 35.27%, and Washtenaw County at 33.1% growth rates.
- Macomb County saw the fastest growth in the state, more than doubling in population at 55.3%, including multiracial APIAs, or 48.3% of APIA alone.
- Novi saw 113.22% growth in APIA population, followed by Hamtramck at 100.96% and Canton at 91.08%.
- 22% of the growth in the Asian American population from 2000-2010 (grew by 61,689 people) is accounted for by the growth in the Asian American population younger than 18 years old.
- These figures would be higher if we included the increasing multiracial APIA populations.

Communities of Interest:

APIAVote-Michigan considers the growing APIA communities in Michigan as communities of interest that should be kept geographically together as practicable. We consider APIA communities as communities of interest based on shared racial, ethnic, cultural similarities and needs, languages spoken and language access needs and issues, policy concerns, voting patterns, what industry they work in and types of jobs they hold, and can also include geographically-relevant centers and facilities serving these communities such as places of worship, schools, and community service centers.

We also recognize that these communities of interest may be considered politically cohesive, a claim we are investigating further. In 2008, 9 out of 10 Asian and Arab voters in Michigan voted Democratic for President Obama, and 81 percent voted for Democratic Congressional candidates. Asian American voters were concerned with 3 top issues during the presidential race, including Economy/Jobs, Foreign Policy/War in Iraq, and Health Care[1].

In 2008, 98% of Asian and Arab American voters voted for the Democratic incumbent while 2% voted for the Republican challenger in the 13th Congressional District. That same year, 84% of Asian and Arab American voters voted for the Democratic incumbent while 12% voted for

the Republican challenger in the 15th Congressional district. 82% of Asian and Arab American voters voted for the Democratic candidate in the Eleventh Congressional District, while 68% of Asian and Arab American voters polled voted for the Democratic candidate for Congress in the Ninth Congressional District. In 2006, the majority of Asian Americans in Southeast Michigan exit polled were also Democrats. Unfortunately, there is no 2002 API exit poll data found so far for Michigan as that exit poll data was scrapped due to problems. The Roper Center for Public Opinion Research's 2000 exit poll for Asian Americans in Michigan found that 13.4% voted for Gore, 78.0% for Bush, and 8.6% for Nader.

APIAs have had historic barriers to voting and participating fully in the political process. From the 1790s when Asian Americans were "aliens ineligible for citizenship," to the Chinese Exclusion Act of the late 1800s that was later extended to most other Asian Americans by 1924[2]; to Asian-only segregated schools for Asian American youth that only ended nationwide in 1954[2], Asian Americans have faced institutional and legal barriers to participating fully in civic life.

During their 2008 Presidential and US Congressional election exit poll, the Asian and American Legal Defense and Education Fund found instances of limited English proficiency within Michigan's APIA population. Sixteen percent of respondents throughout Michigan were limited English proficient (LEP). Among native Bengali speakers in Detroit, 45% were LEP, with 27% preferring to vote with language assistance. In Hamtramck, 40% of native Arabic speakers were LEP, with 29% preferring to vote with language assistance.[1] Many of the respondents preferred voting with language assistance or used an interpreter, as the list below describes[3]

Locality	Language Minority Group	Limited English Proficient	Prefers Voting with Language Assistance	Used an Interpreter	Used Translated Materials
Dearborn	Arabic	27%	18%	21%	11%
Detroit	Bengali	45%	27%	*	*
Hamtramck	Arabic	40%	29%	16%	*

72% of APIA voters surveyed in AALDEF's exit poll were foreign-born naturalized U.S. citizens, with 28% born in the U.S. 8% had no formal U.S. education. 43% were first-time voters. The five largest ethnic groups surveyed in Michigan were Asian Indian (25%), Arab (24%), Chinese (23%), Bangladeshi (15%), and Korean (5%).[1]

Even today, Asian Americans face discrimination and language access issues voting. Michigan does not provide bilingual voting ballots for APIA voters, nor does any Michigan county voluntarily provide bilingual assistance (in an Asian language) on Election Day that we know of. APIA Vote does provide some bilingual assistance where we have the capacity to, to assist in completing voter registration forms, however, and has helped coordinate the translation of voter education information in the past.

Our communities have particular needs and deserve the ability to elect representatives who will feel responsible and be responsive to APIA communities' needs. We are concerned about the possibility of having our communities split up during redistricting. Should that be the case, some APIA voters' ballots cast may be diluted politically.

We recall a classic worst-case scenario in history, when the only Los Angeles APIA City Councilmember had his district redrawn in 1980's. His district was split up into four City Council and five State Assembly districts. After the Los Angeles race riots in 1992, there was $1 billion worth of damages concentrated in Asian and Korea town businesses. When Asian Americans appealed to their local representatives, each representative passed the buck saying it was someone else's district. No legislator felt primarily responsible or accountable to the Asian American community there. We hope that such a problem would not happen here, and this is just one example of why we think it's important to keep APIA communities together.

In drafting new maps, we urge this Committee to adhere to making compact and contiguous districts while respecting city and township boundaries, and as close to equal population as possible. We propose that APIA communities of interest kept together by block groups from the census data. We also propose that APIA communities of interest with similar densities are kept together as much as possible, unless population guidelines necessitate otherwise.

We are in the process of drawing proposed state house and senate district lines for areas in the state with the highest APIA populations and very much look forward to sharing these with you in the near future.

Thank you for your time and consideration.

Testimony on Redistricting
Sue Smith, League of Women Voters of Michigan
Senate Committee on Redistricting
June 22, 2011

On behalf the Michigan Redistricting Collaborative, thank you for the opportunity to testify today. My name is Sue Smith and I am the President of the League of Women Voters of Michigan and a member of the Michigan Redistricting Collaborative.

As you may already know, the Michigan Redistricting Collaborative is a coalition of nonprofits from all segments of the community, including business, labor and public interest, that believe redistricting must be more transparent and open, with more involvement from the public. More than 40 organizations are members of the Collaborative, working together because we all believe that voters should choose their elected officials, not the other way around.

Unfortunately, Michigan, unlike other states, does not have a history of providing opportunities for public input on redistricting plans. On behalf of the Michigan Redistricting Collaborative, we urge you to provide more time and information to allow for adequate public comment on proposed redistricting plans.

We are glad to see, that unlike in 2001, maps have been released prior to a conference committee. And we are pleased that some level of data has been released to allow for public review. However, more time and information is needed to ensure voters can look at a variety of issues that matter to them more than partisan breakdown – communities of interest, competitive nature of districts, etc.

As part of the Michigan Redistricting Collaborative, the Center for Michigan recently conducted community conversations to inform Michigan citizens about redistricting, hear their views on it, and discuss how they can get involved in the process. Community conversations took place in Detroit, Grand Rapids, Lansing, Livonia and Traverse City. More than 200 people voiced their opinions on the redistricting process by voting on questions posed to the group.

When asked about their priorities for how legislative districts are drawn, 88% said that transparency is very important to them. Another question asked participants what process would be best, only 3% said the current process is best, compared to 34% that indicated support for a new legislative system with more transparency, public hearings, clear map rationale and 63% that said they would prefer a non-partisan redistricting commission independent of legislature.

With public support for transparency, we encourage you to build on your action to date by:

- Posting redistricting plans (including data behind maps) to be available on the Legislature's web site for 30 days before passage.
- Holding at least two committee meetings (in each chamber) to receive testimony about the plan.
- Holding at least four public hearings around the state to allow direct comment by the public.
- Providing a statement for each district explaining how the boundaries were drawn and how the district has been changed.

Our request is simple. We are asking for meaningful dialogue on an issue that will impact communities for the next ten years. However, for meaningful dialogue to occur, the public must be given the opportunity to provide feedback on the legislature's redistricting plans. We are asking you not to rush this process.

These simple steps would allow for redistricting plans to be more transparent, open and accountable to the public. Other states already are taking the lead in this matter, and giving the people a bigger say in redistricting. Iowa and about nine others have taken steps to reduce partisan legislative redistricting. Now it's time for Michigan to take that step.

Considering the significant impact of these plans, there is no need to rush a process that happens only once every ten years and is not required to be completed until Nov. 1.

THE SENATE REDISTRICTING COMMITTEE
SENATE HEARING ROOM OF THE BOJI TOWER
124 W. Allegan, Lansing, MI
WEDNESDAY JUNE 22, 2011 8 A.M.

To the Committee through the Chair, Hon., Senator Joe Hune

The Committee may wish to continue with the important process of redistricting by articulating the redistricting principles it follows. We need to know your redistricting principles, *e.g.*, compactness, contiguity, no splitting precincts, so that we can incorporate those traditional redistricting principles in the alternative redistricting plans we will be proposing. Those principles should include transparency, fairness, and compliance with the Voting Rights Act and with Equal Protection.

You should ensure "one person one vote." You should redistrict in a way that avoids minority vote dilution.

- You should be careful to avoid: *packing* which is drawing district lines so that the minority population is over-concentrated or "packed" into election districts.
- You should also be careful to avoid *cracking* (or "fracturing") which is drawing district lines so that an area of concentrated minority population, which is large enough for separate representation in that it could constitute one or more majority minority or majority-black districts, is divided and spread among several districts that are predominantly white.
- You should be careful to avoid *stacking* which is drawing district lines so that a large minority population concentration is included with a larger white population with the purpose or effect of depriving minority voters of a voting majority. Stacking most classically happens in the creation or redistricting of multi-member districts, although it can occur in the redistricting of single-member districts. We also respectfully request that you avoid drawing plans that erode minority rights relative to the status quo, that is, that you avoid creating retrogressive redistricting plans.

A key traditional redistricting principle is respect for communities of interest. These are defined by three characteristics:

- the extent to which non-members identify members as a distinct community;
- the extent to which members identify themselves as a distinct community; and
- the extent to which members are similarly affected by governmental action.

Black citizens form one of the strongest communities of interest in the State of Michigan and the redistricting plan should have as a priority the fashioning of districts that accord appropriate representation to communities of interest.

Parenthetically, what federal financial assistance does Michigan currently receive and from what federal agencies or departments? As you know, Title VI of the Civil Rights Act, along with other federal laws, prohibits entities that receive federal funding from discriminating based on race or national origin.

We ask that as part of the transparency and increased community access to the process that the Committee provide interested community members with access to the State's redistricting software or on-line system and, of course, training for members to use that mapping system. We request that you indicate the terminals that will be available to the community and when they will be available. We also request a schedule of the remainder of the redistricting process.

Testimony of Mark Brewer Regarding Congressional Redistricting

Before the Michigan Senate Redistricting Committee June 28, 2011

Mr. Chairman and members of the Committee, I am Mark Brewer, Chair of the Michigan Democratic Party. I have been involved in Legislative and Congressional redistricting in Michigan since the early 1980's. Thank you for allowing me to submit this testimony on Congressional redistricting.

Introduction

On behalf of the voters of Michigan, the Michigan Democratic Party is very disappointed in the partisan hijacking of the redistricting process represented by the Congressional redistricting plan proposed by Republicans on June 17, 2011 which passed the House last week as HB 4780. Never in Michigan's history has a redistricting map been gerrymandered to be so overtly partisan and disrespectful of community interests to build partisan political advantage. This map zigs and zags throughout Southeastern Michigan to create non-competitive seats that do not represent the demographics of the state and will disenfranchise voters.

The people of Michigan deserve Congressional districts produced by the State Legislature and signed by the Governor that will ensure fair representation in keeping with Michigan's history of competitive districts that respect communities of interest. The people of Michigan deserve to choose their Representatives in Congress - this map clearly was drawn to let the Republican Representatives choose their voters.

Analysis

At a time when population loss over the last decade reduces our State's influence in Congress by one Congressional seat, it is absolutely essential that redistricting be conducted in a fair manner to fully reflect all of the citizens of our State.

The Congressional plan in HB 4780 fails any test of fairness, compactness, and meaningful representation.

The map shreds counties and communities, eliminates competitive districts, and reduces representation in the 2nd largest county in the State.

Gerrymandered Districts

Never before in Michigan's history have districts zigged and zagged all over a large geographic region for partisan advantage.

The two Detroit districts are no longer centered in Detroit. For example, District 14 starts at the edge of River Rouge, sweeps over the Pointes, loops west to Southfield and Farmington Hills, before heading north and using a small stretch of land at Sylvan Lake to get to Pontiac. The district is over 50 miles long but at some points less than half a mile wide.

District 11, previously a Western Wayne and Western Oakland County district now starts in Canton and stretches all the way over and around Pontiac, cutting through a slice of Rochester Hills to connect to Troy before looping around to capture Birmingham and Bloomfield Hills. By taking in Farmington, it is literally only a few blocks wide at one point.

Non-Competitive Districts

Competitive districts are better for voters and better for democracy. Over the last decade, Michigan has seen competitive Congressional races in at least four districts and in the decade before that five districts were competitive. They reflected the competitive nature of our state overall as surveys show that the state is equally divided between Democrats, and Republicans.

The Republican plan would reduce the number of competitive districts. There is not one district under the Republican plan that is 50-50 in partisan make-up when one reviews previous election results. It is clear they sought solely to strengthen the partisan make-up for their Congressional Republican incumbents.

By reducing competitive districts, this plan disenfranchises not only Democrats and Republicans but independent voters – by making partisan primaries the key elections and making general elections irrelevant.

Violates Community Boundaries

Michigan has a tradition of respecting city and county lines in redistricting. This plan ignores that tradition to seek partisan advantage for Republican incumbents.

For example, in Oakland County, the City of Farmington is an "island" surrounded by Farmington Hills. For the first time, Republicans use a narrow path to cut through to the City of Farmington and separate it from Farmington Hills. Similarly, the City of Bloomfield Hills is separated from Bloomfield Township. Rochester Hills is split up simply to allow the Republicans to make their gerrymander contiguous. In Montcalm County, the City of Greenville is also an "island".

In the short space of 18 miles in southeast Michigan, a voter could go through 8 Congressional districts. Driving south from Orion Township in the 8th District, you then enter the 11th Congressional District in Auburn Hills before passing into the 14th District in Pontiac. You will then enter the 9th District in Bloomfield Township before re-entering the 11th District in Bloomfield Hills before entering the 9th District again before going through the 14th District again in Southfield before finally entering the 13th District in Detroit.

If you drove on Woodward from Pontiac to Detroit you would start in the 14th District, and drive through the 9th District in Bloomfield Township. You would then enter the 11th District while driving through Bloomfield Hills, drive through the 9th again in Bloomfield Township. You then re-enter the 11th in Birmingham before re-entering the 9th District in Royal Oak. When you hit 8 Mile you would enter the 14th District again until you got downtown when you enter the 13th District. You would then arrive at the Detroit River waterfront, 24 miles later, in the same district you left, the 14th District. On this straightforward drive on Woodward you pass through the 14th District 3 times, the 9th District 3 times, the 11th District twice, and the 13th District once.

The Democratic Alternative

These problems in Southeast Michigan are solved by the congressional redistricting map released yesterday by the Michigan Democratic Party which complies with the Voting Rights Act, and is more compact, contiguous, and competitive in Southeast Michigan than the Republican gerrymandered map passed by the House last week.

This map is proof that you can comply with the Voting Rights Act without gerrymandering districts the way Republicans did in their map. This map is more compact and contiguous than the Republican map, keeps like-minded areas together, and creates more competitive districts to ensure voters are not disenfranchised.

Republican map-drawers who testified to the House Redistricting Committee last week said it wasn't possible to draw two majority-minority districts without the geographic contortions of their map, but this map proves that testimony to be false. Their map is drawn to maximize a Republican advantage while the Democratic map is drawn to follow the law, give voters a choice, and ensure the districts are as compact as possible. The Democratic map is far superior to the Republicans' gerrymandered proposal.

Conclusion

Voters in Michigan have never before faced such a shamelessly partisan redrawing of Congressional boundaries. Instead of drawing fair lines that follow community and county borders in a logical way, the Republican plan is so skewed that it exploits every trick in the book to gerrymander districts in ways that benefit Republican incumbents. The Legislature and Governor Snyder should reject this gerrymandered plan and draw Congressional boundaries in a way that puts Michigan voters' interests squarely ahead of flagrant partisan advantage.

Michigan Citizens' Redistricting Competition 2011

TESTIMONY OF PROFESSOR JOCELYN BENSON, ESQ.
FOUNDER AND CEO, MICHIGAN CENTER FOR ELECTION LAW
DIRECTOR, MICHIGAN CITIZENS' REDISTRICTING COMPETITION
BEFORE THE MICHIGAN SENATE COMMITTEE ON REDISTRICTING AND ELECTIONS
JUNE 28, 2011

Good afternoon. I would like to thank the Senate Committee on Redistricting and Elections for holding this hearing and for providing an opportunity to present testimony this morning. I am here today in my capacity as the Founder and CEO of the Michigan Center for Election Law, and as the Director of the Michigan Citizens' Redistricting Competition.

Michigan Citizens' Redistricting Competition
The 2011 "Michigan Citizens' Redistricting Competition" is a nonpartisan project of the Michigan Center for Election Law and Administration, in partnership with the Michigan Redistricting Collaborative (which includes groups such as Common Cause, the League of Women Voters, and Michigan Nonprofit Association).

Through providing tools for any Michigan citizen to craft and design their own redistricting maps for Congressional or Michigan legislative districts, we offered citizens an opportunity to take part in producing potential district maps for Michigan's 14 Congressional Seats, or Michigan's state senate or legislative seats.

As discussed in my previous testimony before this committee, the maps were scored based upon objective criteria, and a nonpartisan panel of seven judges convened to evaluate and score the plans. The top nine scoring Congressional plans were submitted for your consideration on May 23, 2011.

When citizens draw the plans, as our competition entrants showed, they do an excellent and fair job while respecting the law. It is not too late for you to follow their example before finalizing their plans, and I urge you to do so.

Today I submit to you additional details about the competition's winning plan. The detailed map is available online at:
https://districtbuilder.michiganredistricting.org/districtmapping/plan/359/view/

Nathan Inks, a Lincoln Park resident and Central Michigan University undergraduate student is the first-prize winner of the Michigan Citizens' Redistricting Commission. Inks, who also serves as president of the CMU College Republicans, is a meteorology major with plans to go to law school and practice election law. His plan was selected as best overall by a nonpartisan panel of judges, based on its excellent performance in the areas of equipopulation, compactness, limiting of county splits, high number of competitive districts and partisan fairness.

In a statement made shortly after learning his plan received the Competition's top honors, Inks stated that he encourages you to "adopt a plan that is fair to voters:"

"[A]s a life-long Republican," Inks said, "when I saw District 14 from the proposed [congressional] map, even I cringed because of how awkward and mangled it was. Such gerrymandering takes the focus off of the good things the GOP has done for the state and makes the party look like they need to 'cheat' to win."

All nine of the top congressional plans excelled in demonstrating that there are multiple ways in which Congressional districts may be drawn to comply with the law. Nathan's plan was the best of the best in a wide variety of key areas. And his plan demonstrates that it is possible to draw fair, legal maps without gerrymandering or creating oddly shaped districts.

Finally, on that last point regarding oddly shaped districts, I urge you consider the United States Supreme Court holding in *Shaw v. Reno* before enacting this Congressional District plan into law. That opinion, as you recall, concluded that a citizen in an racially gerrymandered district could state a claim under the Fourteenth Amendment if they could feasibly allege that traditional districting principles, such as respect for political subdivisions, compactness, and contiguity, had been set aside in deference to considerations of the racial makeup of the district. Most notably, the opinion expressed great concern over the shape of the districts in North Carolina's plan, referring to them as "dramatically irregular," and "bizarre." O'Connor emphasized the importance of appearance in redistricting, pontificating that when "redistricting legislation ... is so extremely irregular on its face that it rationally can be viewed only as an effort to segregate the races for purposes of voting, without regard for traditional districting principles," the legislation could violate the Equal Protection Clause of the Fourteenth Amendment.

And as Nathan Ink's plan and several others in our competition demonstrated, you need not draw districts with such a strange appearance in order to comply with the requirements of the Voting Rights Act.

Thank you again for the opportunity to testify before you today, and for inviting public comment on the redistricting process at this hearing.

Testimony on Redistricting
Sue Smith, League of Women Voters of Michigan
Senate Committee on Redistricting
June 28, 2011

On behalf the Michigan Redistricting Collaborative, thank you for the opportunity to testify today. My name is Sue Smith and I am the President of the League of Women Voters of Michigan and a member of the Michigan Redistricting Collaborative.

On behalf of the more than 40 organizational members of the Collabortative, I want to continue to voice our concern about the lack of transparency in this redistricting process.

Let me be clear. We are not asking for you to wait until November 1. We are simply asking for 30 days so that the proposed plans may be analyzed and meaningful dialogue can occur. The proposed plans have not been provided to the public in a format that is easily analyzed or understood.

As part of the Michigan Redistricting Collaborative, the Center for Michigan recently conducted community conversations to inform Michigan citizens about redistricting, hear their views on it, and discuss how they can get involved in the process. Community conversations took place in Detroit, Grand Rapids, Lansing, Livonia and Traverse City. More than 200 people voiced their opinions on the redistricting process by voting on questions posed to the group.

When asked about their priorities for how legislative districts are drawn, 88% said that transparency is very important to them. Another question asked participants what process would be best, only 3% said the current process is best, compared to 34% that indicated support for a new legislative system with more transparency, public hearings, clear map rationale and 63% that said they would prefer a non-partisan redistricting commission independent of legislature.

With public support for transparency, we encourage you to build on your action to date by:

- Posting redistricting plans (including data behind maps) to be available on the Legislature's web site for 30 days before passage.
- Holding at least two committee meetings (in each chamber) to receive testimony about the plan.
- Holding at least four public hearings around the state to allow direct comment by the public.
- Providing a statement for each district explaining how the boundaries were drawn and how the district has been changed.

Our request is simple. We are asking for meaningful dialogue on an issue that will impact communities for the next ten years. However, for meaningful dialogue to occur, the public must be given the opportunity to provide feedback on the legislature's redistricting plans. We are asking you not to rush this process.

Considering the significant impact of these plans, there is no need to rush a process that happens only once every ten years.

U.S. Rep. Sander Levin
Testimony before Michigan State Senate
Hearing on Draft Redistricting Maps
June 28, 2011

Mr. Chairman and members of the committee, thank you for allowing me to present testimony on Congressional redistricting.

I have seen redistricting from the vantage point of a State Legislator, a County and State Party Chair and as a Member of Congress. I'm here today because your action impacts our state for ten years and I have very deep concerns about the map as currently proposed.

While 75 percent of my current district stays together under the Republican proposal, one's self interest must be less important than the interest of the residents of our State.

At the heart of our democracy is the ability to choose your elected officials. Democracy is undercut if, because of the mis-shape of congressional districts for purely partisan purposes, every election for Congress ends in the August primary.

At the heart of our democracy is competition. An exchange of ideas, healthy debate, and taking that debate to the public so they can make a choice in the General election. The process works better when there are competitive districts. In competitive districts you have to reach out to Democratic, Republican and Independent voters.

The proposed Republican map goes out of its way to avoid them, with its overriding goal of partisan advantage and protecting their incumbents.

The proposed Republican map gets it backwards. It allows incumbents to choose their voters through grossly gerrymandered lines, rather than voters choosing their Members of Congress.

The proposed Republican map shreds communities and counties in its drive for partisan advantage. It disregards the significance of community.

In 1992, I came to Lansing to testify on re-districting, in a different forum – a three judge federal panel, with 2 judges appointed by a Republican president and 1 by a Democrat. After taking testimony and reviewing both Democratic and Republican drafted maps, they drew their own congressional map for the State of Michigan.

It was a fully competitive one. John Dingell, Dale Kildee, Debbie Stabenow, Bart Stupak and I all had close and competitive elections that decade.

The legal processes have changed since then but we should hold that decade up as a model of what is possible for our state.

We have never had maps so bizarrely shaped in Michigan as the one that passed the House.

I understand what is now easy to do with computer technology. You just bring up the partisan information of voters and draw lines to group together as many of one party as possible. It might be easy, but it is wrong.

The districts in the House plan meander throughout Southeast Michigan, contorting geography to pick up pockets of voters in a clear effort to gain partisan advantage

The proposed 14th Congressional District stretches from the Detroit River to Pontiac. It is over 50 miles long but at some points is less than a half mile wide.

Or take the proposed 11th District, which starts in Canton in the south then heads north, ultimately bending above Pontiac to get to Troy – then bends back inward in almost a spiral to take in Birmingham and Bloomfield Hills.

Testimony on Redistricting
By
Sue Smith, League of Women Voters of Michigan
Christina Kuo, Common Cause of Michigan

Senate Committee on Redistricting
May 25, 2011

On behalf the Michigan Redistricting Collaborative, thank you for the opportunity to testify today regarding the need for a transparent and open redistricting process.

My name is Sue Smith and I am the President-Elect of the League of Women Voters of Michigan and a member of the Michigan Redistricting Collaborative.

As you may already know, the Michigan Redistricting Collaborative is a coalition of nonprofits from all segments of the community, including business, labor and public interest, that believe redistricting must be more transparent and open, with more involvement from the public.

More than 35 organizations are members of the Collaborative, working together because we all believe that voters should choose their elected officials, not the other way around.

Unfortunately, Michigan, unlike other states, does not have a history of providing opportunities for public input on redistricting plans.

Iowa, for example, has finished its congressional and legislative redistricting exercise, following public meetings and input – and the plan adopted had widespread support from Republicans and Democrats.

In Illinois, the state Senate is holding two public hearings after maps are drawn, and before they are approved – different than the usual process where the public is an afterthought.

Here in Michigan, however, we haven't seen any maps. Our concern is that this redistricting process will be similar to the one in 2001 when redistricting legislation was adopted by a legislative conference committee, with no members of the public being afforded a chance to even look at the maps, let alone offer any significant input, and then approved on straight party line votes and sent to Gov. John Engler for prompt signature. The secretive actions only added to public skepticism about the political process – and rightly so.

Thank you again for the opportunity to speak today, I'd now like to ask Christina Kuo with Common Cause to speak regarding the Collaborative's specific recommendations.

Good Morning. I'm Christina Kuo, Executive Director of Common Cause Michigan and member of the Michigan Redistricting Collaborative.

The Redistricting Collaborative is recommending the Legislature take the following small steps to ensure a transparent and open redistricting process:

- Require redistricting plans to be available on the Legislature's website for 30 days before passage.
- Mandate each chamber to hold at least two committee meetings to receive testimony about the plan.
- Hold four public hearings around the state to allow direct comment by the public on the plan.
- Provide a statement for each district explaining how the boundaries were drawn and how the district has been changed.

Our request is simple. We are asking for meaningful dialogue on an issue that will impact communities for the next ten years. However, for meaningful dialogue to occur, the public must be given the opportunity to provide feedback on the legislature's redistricting plans.

These simple steps would allow for redistricting plans to be more transparent, open and accountable to the public. It would also decrease the level of public scrutiny that is likely to occur if the process is a closed one.

In addition to the states mentioned earlier, Counties in Michigan are also taking action to ensure public input.

The counties have just as much statutory and legal guidance as the legislature in regard to redistricting, however, a number of counties, Ingham, Kalamazoo, and Oakland counties have gone above what is required of them and embraced our core principles of transparency and citizen participation. Oakland County, especially, is at the forefront of this. Their redistricting commission added a page to the county clerk's website to house, all minutes, actions, maps, analyses, and data relating to redistricting in that county. They have adopted procedures that open up the process to citizen input and scrutiny: the maps must be publicly posted on the website for a minimum of 72hrs before the commissioners can deliberate on them. They have held 2 night meetings, one solely devoted to public feedback on proposed plans by members of the county redistricting commission.

Oakland County shows how simple it is to have a transparent process that provides ample opportunities for citizens to participate and provide feedback on maps, when those charged with redistricting truly want an open and transparent redistricting process.
On behalf of the Michigan Redistricting Collaborative, I urge you to provide opportunity for input on proposed redistricting maps. Transparency is a buzzword often heard in Lansing these days. Here is a chance to have it put into action.

Thank you again for the opportunity to testify today.

To: "Rep. Pete Lund" <PeteLund@house.mi.gov>
Date: 6/20/2011 11:53 AM
Subject: RE: redistricting and the unnecessary giveaway of the 55th district seat

Rep. Lund:

As chairman of the House Redistricting and Elections Committee, I am writing to you to ask for your help in correcting a disastrous failure of judgment with regards to the arrangement of the proposed 52nd and 55th district boundaries. **Please share this message with the full committee as my written testimony on the proposed Michigan House districts map, as I will not be able to be at Tuesday's hearing**:

The proposed new 52nd/55th state House district boundaries are a disaster for the MI GOP and our county party efforts. In 2010, a combination of a very strong Tea Party movement and absolutely tireless personal campaigning netted the GOP two new competitive House seats covering Washtenaw Co. The state party came in and gave the 55th district race a boost in the final couple of weeks, but it was the grassroots and even more importantly a relentless door-to-door effort on the part of the candidate that won the day.

Now, less than a year later, the state party has proposed to give back the 55th District to the Democrats without a fight? That is unacceptable to this grassroot Tea Party conservative, and it should be unacceptable to anyone who has had the pleasure of working with Rep. Olson in Lansing.

Even more importantly, **the decision to sacrifice the 55th district to Democrats in favor of bulletproofing the 52nd district seat for the GOP is unnecessary and suggests a dangerous ignorance of the local conditions** "on the ground" in this county. Conservatives in the growing Tea Party movement here helped win both of these seats, especially in the 55th district. The grassroots have only grown and become more knowledgeable, active, and campaign-savvy since then.

There is no reason why the republican party, with the help of the Willow Run Tea Party Caucus, Rattle With Us, the Western Washtenaw Tea Party, and nascent Saline Area Tea Party organizations **cannot win re-election for both of our currently republican districts if they are kept reasonably competitive (read: at least 50-50).**

The state party leadership's proposal to abandon what we on the ground gained in 2010 makes a clear and unmistakable statement to the party's grassroots here that they do not trust us to get the job done again. Is that the message you want to give going into a tough Presidential year?

I strongly urge you to reconsider this flawed plan for the 52nd and 55th districts. It is far better to trust your grassroots here and revise the boundaries to create to viable and competitive districts.

I urge you to revise the boundaries as follows:

1. Move the north side of Ann Arbor and Ann Arbor Twp. back into the 52nd district. These areas are Mr. Ouimet's longtime backyard - if he cannot attract enough votes here he doesn't deserve re-election anyway. More importantly, the northside of Ann Arbor might as well be on the moon for

how little of a relationship it has with folks in Augusta Twp. at the other end of the proposed 55th district.

2. Revise the 55th district to be an east-west district lined up along the US-12 (Michigan Ave.) corridor, from Augusta Twp. on the east to Manchester Twp. on the west. Include Pittsfield, Lodi, and the City of Saline as necessary to balance the population.

This arrangement (adjusted as necessary to balance) would create two competitive districts that truly make sense for the geography and population distribution of the county.

DON'T GIVE THE 55th DISTRICT BACK TO THE DEMOCRATS WITHOUT A FIGHT! We fought too hard to win back this seat for the GOP to watch the state party leadership meekly give it back, especially when you have the power to fix it now!

I look forward to your response.

Respectfully,

Rodney C. Nanney

Senate Bill No. 447

Not Voting—0

In The Chair: Schuitmaker

The Senate agreed to the title of the bill.

Protests

Senators Anderson and Bieda, under their constitutional right of protest (Art. 4, Sec. 18), protested against the passage of Senate Bill No. 450.

Senator Anderson's statement, in which Senator Bieda concurred, is as follows:

I rise to oppose Senate Bill No. 450. I had hoped to make this statement prior to passage of the bill. I oppose Senate Bill No. 450 because this bill would allow the waste reduction fund to be used for the permit to install program in the DEQ Air Quality Division. While some may say it makes sense that the fund can currently be used for waste minimization purposes, it is not clear that it would be correct to use these funds in this manner.

I know that it is a budget implementation bill. The fiscal year 2012 budget removed $1.2 million from the waste fees, and staff has been cut already by nine positions, decreasing the ability to monitor and enforce our environmental laws. These individuals handled pollution prevention and compliance assistance programs, even helping businesses and individuals applying for environmental grants.

Why would we further injure a program designed to help businesses? Just as concerning, we will be giving the department, through statute, in perpetuity the ability to raid this fund without legislative oversight. We shouldn't allow the administration to use taxpayer dollars in this way, diverting these scarce resources and further jeopardizing our environment.

The following bill was read a third time:

Senate Bill No. 498, entitled

A bill to amend 2001 PA 116, entitled "An act to divide this state into 110 representative and 38 senatorial districts; and to prescribe the powers and duties of certain state departments and officers," by amending the title and sections 3 and 6 (MCL 4.2003 and 4.2006), and by adding sections 1a, 2a, and 5a.

The question being on the passage of the bill,

Senator Whitmer offered the following substitute:

Substitute (S-3).

The question being on the adoption of the substitute,

Senator Meekhof moved that further consideration of the substitute be postponed temporarily.

The motion prevailed.

Senator Hunter requested the yeas and nays.

The yeas and nays were ordered, 1/5 of the members present voting therefor.

The motion prevailed, a majority of the members voting therefor, as follows:

The Senate agreed to the title of the bill.

Senator Whitmer asked and was granted unanimous consent to make a statement and moved that the statement be printed in the Journal.

The motion prevailed.

Senator Whitmer's statement is as follows:

Today, I'm offering a substitute to this bill. We have followed the progress of this bill, and we've heard many times about the Apol standards and the Voting Rights Act. We believe that the Voting Rights Act requires six majority-minority seats, and thus, I've submitted a bill that provides for six such districts.

In conversations with the legislative majority, they believe only five are required. While I disagree with their legal assessment, I am offering this amendment to see if the majority is serious about meeting the Apol standards. This map provides for fewer breaks under the Apol standards than the majority map: one fewer breaks in between Oakland and Genesee Counties and no municipal break in Clinton Township in Macomb County.

So it's a simple issue. The majority either believes that it must follow the Apol standards and pick the best map with the fewest breaks, or it is only treating the Apol standards for public relations purposes. My substitute contains a cross-reference to expressly incorporate the Apol standards at MCL 4.261, and that's also found in the majority (S-1) substitute. If those standards mean anything, it means that the best map with the fewest breaks wins. That is what is before you. I ask for your support.

By unanimous consent the Senate proceeded to the order of

Resolutions

Senator Meekhof moved that consideration of the following resolutions be postponed for today:

Senate Resolution No. 34

House Concurrent Resolution No. 9

Senate Concurrent Resolution No. 10

The motion prevailed.

Senators Hunter and Jansen offered the following resolution:

Senate Resolution No. 65.

A resolution to urge Michigan's public universities to adopt policies to protect the rights of students in counseling, social work, or psychology programs who are faced with situations that conflict with their religious beliefs.

Whereas, A distinguishing feature of our American values is respect for religious beliefs that may be different than our own. The potential for conflict when a person with deeply-held religious convictions encounters a situation that challenges these beliefs is inherent in several professions, including counseling and social work; and

Whereas, A specific case at a Michigan university involving a graduate student faced with counseling a person whose life included elements that conflicted with the graduate student's beliefs has drawn considerable attention. The dismissal of the graduate student and the subsequent legal actions make it clear that a reasonable solution to this situation must be found; and

Whereas, It is reasonable to expect that those who work in areas where deeply-held personal beliefs conflict will face difficult situations. It is prudent to encourage the development of standards that give greater opportunities for a counselor to refer someone to another counselor without fear of penalty. Our higher education institutions should do all they can to provide for such situations; now, therefore, be it

In The Chair: Walsh

Pursuant to Joint Rule 20, the full title of the act shall be inserted to read as follows:

"An act to codify the laws regarding local units of government regulating the development and use of land; to provide for the adoption of zoning ordinances; to provide for the establishment in counties, townships, cities, and villages of zoning districts; to prescribe the powers and duties of certain officials; to provide for the assessment and collection of fees; to authorize the issuance of bonds and notes; to prescribe penalties and provide remedies; and to repeal acts and parts of acts,"

The House agreed to the full title.

Rep. Stamas moved that the bill be given immediate effect.

The motion prevailed, 2/3 of the members serving voting therefor.

Second Reading of Bills

Senate Bill No. 165, entitled

A bill to provide for fair and open competition in governmental construction contracts, grants, tax abatements, and tax credits; to prohibit requirements for certain terms in government contracts and contracts supported through government grants and tax subsidies and abatements; to prohibit expenditure of public funds under certain conditions; to prohibit certain terms in procurement documents for certain expenditures involving public facilities; and to provide for powers and duties of certain public officers, employees, and contractors.

The bill was read a second time.

Rep. Stamas moved that the bill be placed on the order of Third Reading of Bills.

The motion prevailed.

Senate Bill No. 398, entitled

A bill to amend 1961 PA 236, entitled "Revised judicature act of 1961," by amending sections 3204 and 3205e (MCL 600.3204 and 600.3205e), section 3204 as amended by 2009 PA 29 and section 3205e as added by 2009 PA 31.

The bill was read a second time.

Rep. Stamas moved that the bill be placed on the order of Third Reading of Bills.

The motion prevailed.

Senate Bill No. 498, entitled

A bill to amend 2001 PA 116, entitled "An act to divide this state into 110 representative and 38 senatorial districts; and to prescribe the powers and duties of certain state departments and officers," by amending the title and sections 3 and 6 (MCL 4.2003 and 4.2006), and by adding sections 1a, 2a, and 5a.

Was read a second time, and the question being on the adoption of the proposed amendment previously recommended by the Committee on Redistricting and Elections, (for amendment, see today's Journal, p. 1571),

The amendment was adopted, a majority of the members serving voting therefor.

Rep. Durhal moved to substitute (H-1) the bill.

The motion did not prevail and the substitute (H-1) was not adopted, a majority of the members serving not voting therefor.

Rep. Roy Schmidt moved to amend the bill as follows:

1. Amend page 355, line 25, by striking out the balance of the page through line 1 of page 381 and inserting:

Senate Bill No. 498, entitled

A bill to amend 2001 PA 116, entitled "An act to divide this state into 110 representative and 38 senatorial districts; and to prescribe the powers and duties of certain state departments and officers," by amending the title and sections 3 and 6 (MCL 4.2003 and 4.2006), and by adding sections 1a, 2a, and 5a.

Was read a third time and passed, a majority of the members serving voting therefor, by yeas and nays, as follows:

The House agreed to the title of the bill.

Reps. Santana, Segal, Irwin, Lipton, Townsend, Darany, Byrum, Hammel, Brunner, Hobbs, Rutledge, Slavens, McCann, Barnett, Smiley, Stallworth, Howze, Bauer, Tlaib, and Lindberg having reserved the right to explain their protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

I voted 'no' on Senate Bill 498 because, among a number of other reasons, the process leading up to passage of the bill and the plan itself violates the Voting Rights Act of 1965 and is illegal. The Republican Majority in the House and Senate have drawn gerrymandered and partisan redistricting maps that are not fair to the citizens of Michigan. The Republican majority are not letting voters choose their representatives, as they should be. They are choosing their voters.

The Republican Majority introduced Senate Bill 498 on Thursday, June 16th, without any information describing the Senate and House maps that are before us today. Just late yesterday, SB 498 was revised with a new House map and we have yet to receive that new map that fully describes the changes that were before the Redistricting and Elections Committee this morning and is before us on the House floor now. Today, without giving us any time to analyze this plan, I have been asked to vote on it.

A number of nonpartisan organizations have asked the Republican majority to slow down this process so the public has an opportunity to weigh in on the newly-drawn lines. Democrats and the nonpartisan organizations asked for more time so a meaningful analysis of this plan can occur, an analysis that would include a thorough understanding of the implications of these new lines on Michigan's citizens and communities, and to ensure the plan is compliant with state and federal law. The Republican Majority has not provided the necessary time to evaluate their plan, nor the analysis, or assurance that the plan is legal.

During Committee, Republican staff members testified on the details of the Senate and House maps. The staff members were unable to address basic drafting and legal questions. Democratic Members asked if we would have the opportunity to have an expert answer questions. We never received a response. Democratic members of the Redistricting and Elections Committee asked the Republican Chair and Republican staff members how they determined whether the percentages in the majority-minority districts were in compliance with the Voting Rights Act. The Republicans failed to answer that question. The Republican Chair and Republican staff members also failed to answer the question of whether the percentages of African American voters in the majority-minority districts would provide African American voters the opportunity to elect representatives of their choice—a critical determination under the United States Supreme Court holding in Thornburg v. Giggles and Bartlett v. Strickland.

The Republican Majority egregiously splits the Latino community in Detroit which is close to a 45% Latino voting age population in the current HD 12. Now, under the new House map, House Districts 5 and 6 now split the strong Southwest Detroit Latino community down to an estimated 24.51% in the newly drawn HD 5 and an estimated 17.39% in the newly drawn HD 6.

The Republican majority has also drawn gerrymandered, partisan districts in the plan. Examples of these districts include:

• The House map splits the City of Grand Rapids in a strange, gerrymandered configuration with HD 76 snaking around HD 75 for partisan purposes; and

• The House map creates a gerrymandered, claw-like appearance in Ingham County's HD 68 for partisan purposes.

Finally, the $30,000 appropriation contained in this legislation is unacceptable because at last report there was over $333,000 left in the fund that we set aside last year for the costs associated with the redistricting process.

The Michigan House Democrats and the Michigan Legislative Black Caucus have both offered House and Senate alternative maps that create districts that more fairly represent the citizens of Michigan and more closely adhere to state and federal requirements, including the Voting Rights Act. The Republican Majority has failed to even consider these better alternatives.

The redistricting process involves decisions that will have a long-lasting impact on our state. This should not be a partisan issue. Instead of drawing fair lines that follow community and county boundaries, this plan draws gerrymandered districts to benefit Republican incumbents and violates state and federal laws, including the Voting Rights Act. I cannot support this plan."

Rep. Roy Schmidt, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

Rep. Cavanagh, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

I voted 'no' on Senate Bill 498 because it is a partisan, unfair and gerrymandered plan. The people of Michigan deserve state legislative districts that will ensure fair representation in keeping with Michigan's history of competitive districts that respect communities of interest. This map clearly was drawn to let the Republican Representatives choose their voters.

Furthermore, the $30,000 appropriation contained in this legislation is unacceptable because there is over $333,000 left in the fund that we set aside last year for the costs associated with the redistricting process.

The redistricting process involves decisions that will have a long-lasting impact on our state. This isn't and should not be a partisan issue. Instead of drawing fair lines that follow community and county boundaries, this plan draws gerrymandered districts to benefit Republican incumbents. I cannot support it."

Rep. Constan, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

I voted 'no' on Senate Bill 498 because the process leading up to passage of the bill and the plan itself violates the Voting Rights Act of 1965. The Majority Party in the House and Senate have drawn gerrymandered and partisan redistricting maps that are not fair to the citizens of Michigan. The Republican majority are not letting voters choose their representatives, as they should be. They are choosing their voters.

The Majority Party introduced Senate Bill 498 on Thursday, June 16th, without any information describing the Senate and House maps that are before us today. Late in the day on June 27, 2011SB 498 was revised with a new House map. The Representatives in the House of Representatives have not been able to review the new map that fully describes the changes that were before the Redistricting and Elections Committee earlier today that we are forced to vote on now. Rep. Durhal, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

I voted no on this legislation because of the material damage to the African-American and people of color communities in this state. The Michigan Legislative Black Caucus is opposed to the bill and we expect to challenge this measure if it is signed into law. Our challenge will continue to the courts."

Rep. Brown, having reserved the right to explain her protest against the passage of the bill, made the following statement:

I voted 'no' on Senate Bill 498 because the process leading up to passage of the bill and the plan itself violates the Voting Rights Act of 1965 and is illegal. Rep. Olumba, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

Senate Bill 498 violates the 14th amendment and is otherwise unconstitutional and unlawful in that it refuses to properly count certain minority populations and areas that demonstrate political cohesion as is required by the voting rights act, and as is set apart in Supreme Court landmark decision Thornburgh v. Gingles.

The Republican Majority egregiously splits the Latino community in Detroit which is close to a 45% Latino voting age population in the current HD 12. Now, under the new House map, House Districts 5 and 6 now split the strong Southwest Detroit Latino community down to an estimated 24.51% in the newly drawn HD 5 and an estimated 17.39% in the newly drawn HD 6. The Michigan House Democrats and the Michigan Legislative Black Caucus have both offered House and Senate alternative maps that create districts that more fairly represent the citizens of Michigan and more closely adhere to state and federal requirements, including the Voting Rights Act. I cannot support these unconstitutional bills."

If someone looks at the legislative history of this redistricting and compares the maps offered for all three legislative bodies, they will see that this wasn't about county breaks. This wasn't about the Voting Rights Act. This was only about protecting incumbents at the expense of the integrity of this institution, and thus, I ask for your support of this substitute.

Senators Hune and Richardville asked and were granted unanimous consent to make statements and moved that the statements be printed in the Journal.

The motion prevailed.

Senator Hune's statement is as follows:

What we have before us are congressional redistricting plans. It is the epitome of transparency. These maps have been released to the public for quite some time, passed through the State House on a bipartisan vote, passed through the Senate in a redistricting committee, and is before us without amendment.

The public has seen these maps that are before us. What we have in front of us are a fair, a legal, and a constitutional plan for our new congressional districts. I urge all of my colleagues to support it, and it deserves bipartisan support.

Senator Richardville's statement is as follows:

Michigan has lost one congressional district as a result of the 2010 census. Nonetheless, this congressional redistricting plan preserves the cores of 14 existing districts and preserves two African-American majority districts. Of equal or greater importance, we have also continued to have two predominately Detroit-based districts, giving our state's largest city two likely Representatives in the Congress, notwithstanding the significant population loss of the city of Detroit. We have done this with the fewest number of county and municipal breaks of any plan we have seen, thus complying with Michigan's longstanding and traditional redistricting policies.

By unanimous consent the Senate returned to the order of

Messages from the House

Senate Bill No. 498, entitled

A bill to amend 2001 PA 116, entitled "An act to divide this state into 110 representative and 38 senatorial districts; and to prescribe the powers and duties of certain state departments and officers," by amending the title and sections 3 and 6 (MCL 4.2003 and 4.2006), and by adding sections 1a, 2a, and 5a.

The House of Representatives has amended the bill as follows:

1. Amend page 1, line 8, by striking out the balance of the page through line 26 on page 399 and inserting:

(Filed with the Secretary of State on August 9, 2011, at 1:33 p.m.)

Respectfully,
Rick Snyder
Governor

The following message from the Governor was received:

July 12, 2011

Today I have signed Enrolled Senate Bill 138, which makes supplemental appropriations for various departments and agencies for the fiscal year ending September 30, 2011.

In providing direction to departments in implementing appropriations contained in Enrolled Senate Bill 138, I note the following:

- Section 271 attempts to impose conditions on appropriations not contained in Enrolled Senate Bill 138. The conditions purportedly imposed by this section cannot be valid conditions on appropriations as they are outside the scope of the title and object of the bill and may violate Const 1963, art IV, section 24.
