PLAINTIFFS

VS.

**SECRETARY OF STATE DELBERT
HOSEMANN, in his official capacity**

DEFENDANT

SECRETARY HOSEMANN'S EXPERT WITNESS DESIGNATION

Pursuant to Fed. R. Civ. P. 26 and L.U. Civ. 26(a)(2), as a supplement to his prior disclosures and responses to discovery served in this consolidated matter, and within the deadline provided in the Court's current Case Management Order, Defendant Delbert Hosemann, Secretary of State of Mississippi (Secretary Hosemann), hereby designates the following person as an expert witness who may be called to testify at the trial of this matter, to the extent the testimony which may be provided constitutes opinion testimony requiring disclosure under Rule 26 and Local Rule 26(a)(2):

C. Rick Moore
Office of the Attorney General
550 High Street, Suite 1200
Jackson, MS 39201
(601) 359-3680

Mr. Moore is expected to testify regarding data provided by the Mississippi

Administrative Office of Courts (AOC) and produced by the *Harness* plaintiffs' counsel in discovery in these consolidated cases on or about July 11, 2018. Mr. Moore's summaries and analyses of the AOC data, and any opinions, as well as the factual bases for them, set forth in his report affixed hereto as Exhibit "1." Mr. Moore's report contains a description of his qualifications, the facts and data considered, and all other information required to be disclosed by Rule 26(a)(2)(B). Mr. Moore reserves the right to rely on further facts and data made known to him through discovery, depositions, or at trial of this matter, and to supplement his opinion(s) as necessary.

Secretary Hosemann reserves the right to rely on Mr. Moore's summaries and analyses as fact witness testimony, and to supplement this designation as may be necessary.

THIS the 31st day of August, 2018.

Respectfully submitted,

SECRETARY OF STATE DELBERT HOSEMAN

By: JIM HOOD, ATTORNEY GENERAL

Report – July 31, 2018 – Harness v. Hosemann/Hopkins v. Hosemann; USSD No. 3:17cv791

I am currently the Information Technology Director at the Office of the Mississippi Attorney General. I have worked for the Attorney General's Office for the past 24 years, and held my current position for the past 15 years. My general job duties include, but are not limited to, oversight of the Office's day-to-day information technology services, computer support services, and network security. I earned a Bachelor of Science degree in Computer Science from Mississippi College in 1988. I am proficient, through training and experience, in the use of Microsoft Excel software.

I have not published any academic articles within the past ten years. I have not testified, or been designated as an expert, in a case in the past four years. I am not being compensated for my work in conjunction with the Harness/Hopkins matter outside of my ordinary state service compensation.

Summary/Analysis of Mississippi Administrative Office of Courts (AOC) Dataset on Criminal Dispositions 1994-2017

The purpose of this summary/analysis is to estimate the total number and demographic information of individuals convicted of crimes in Mississippi courts from 1994 to 2017, within certain parameters requested by counsel, based upon data obtained through AOC and as described below. My analysis follows similar methodology described in the report of Matthew A. Williams and dated May 22, 2018, a copy of which was provided to me by counsel. The summary/analysis contains two parts. Part one relates to the AOC data regarding individuals convicted of felonies which I understand disqualify the individuals from serving as Mississippi electors. Part two relates to the AOC data regarding individuals convicted of certain felonies which I understand are not considered disqualifying felonies.

Part One

Methodology

Data Source

An excel spreadsheet was made available to me by counsel. I understand the spreadsheet was obtained from counsel for the Harness plaintiffs through discovery, produced in July 2018. I further understand the spreadsheet includes data from AOC which includes criminal dispositions in Mississippi courts from 1994-2017, and the data was used in conjunction with Mr. Williams' May 22, 2018 report and a subsequent report of a Mr. Rothman produced by counsel for the Hopkins plaintiffs in August 2018. I further understand the spreadsheet does not contain data from Jefferson Davis County due to different

formatting and the absence of certain data, and results from that county are therefore excluded from this analysis.

Selection of Offense and Disposition Categories

Specific criminal dispositions reflected on Appendix 1 of Mr. Williams' May 22, 2018 report have been used in the selection criteria. Those dispositions are reproduced as Appendix 1 to this report.

Specific offenses asserted as falling within the umbrella of disqualifying crimes were taken from the list reflected on Appendix 2 of Mr. Williams' May 22, 2018 report. Those offenses are reproduced as Appendix 2 to this report.

Filtering Stages

The first filter applied was on column U "Disposition" for the relevant 22 dispositions (See appendix 1). The results of the filter were 409,455 records of the original 690,976. The filtered results were saved to another spreadsheet.

The second filter applied was on column Y, "Name of Sentencing Offense" for the 99 Appendix 2 offense categories. The results of the filter 90,859 were records. No records were found for the following offense categories:

- Bribery: Legislator Accepting/Agreeing to Accept
- Bribery: Participant in Professional/Amateur Game or Athletic Contest
- Bribery/Influencing: Legislator, Capital Murder: of elected official
- Capital Murder: of an elected official
- False Pretenses: Produce Child with Intent to Intercept Inheritance
- False Pretenses: Registering Animals Falsely; Giving False Pedigree
- Forgery: Owning Counterfeit Foreign Coinage (Indictment)
- Murder: Deliberate design to effect death of unborn child
- Murder/Capital Murder: Indictment may include lesser included offense

Individuals without a Date of Birth listed

Any records with Column J, "Date of Birth" that were blank have been removed from the spreadsheet. 3,255 records were removed. 87,604 records remained for analysis.

Creation of a Unique Identifier for De-Duplication

The Excel Concatenate Formula was used to create an unique identifier. Column D "Last Name", Column E "First Name", and Column J "Date of Birth" were used to create a Column K "Unique". An example of the created Unique Identifier would be "COOPERPHILO1/01/2000". After the unique identifier is created, the "Remove Duplicates" filter is used on Column K "Unique". 35,891 duplicates were removed. 51,713 records remained for analysis.

Part One Results – Statute Groupings

Using the remaining 51,713 records, I filtered those records by statute and race fields, using the COUNTIF function in excel, and according to statute groupings provided by counsel. The analysis yielded the following results.

GROUP 1: MURDER: 2,240 records were pulled using the statute fields described in Appendix 3. The following results were achieved using the COUNTIF function in excel.

Black	1640	73.21%
White	555	24.78%
Other	45	2.01%
Total	2240	

GROUP 2: RAPE: 1,855 records were pulled using the statute fields described in Appendix 4. The following results were achieved using the COUNTIF function in excel.

Black	1194	64.37%
White	588	31.70%
Other	73	3.93%
Total	1855	

GROUP 3: BRIBERY: 40 records were pulled using the statute fields described in Appendix 5. The following results were achieved using the COUNTIF function in excel.

Black	23	57.50%
White	14	35%
Other	3	7.50%
Total	40	

GROUP 4: THEFT: 30,885 records were pulled using the statute fields described in Appendix 6. The following results were achieved using the COUNTIF function in excel.

Black	19084	61.79%
White	11026	35.70%
Other	775	2.51%
Total	30885	

GROUP 5: OBTAINING MONEY OR GOODS UNDER FALSE PRETENSE: 5,090 records were pulled using the statute fields described in Appendix 7. The following results were achieved using the COUNTIF function in excel.

Black	2716	53.36%
White	2175	42.73%
Other	199	3.91%
Total	5090	

GROUP 6: PERJURY: 116 records were pulled using the statute fields described in Appendix 8. The following results were achieved using the COUNTIF function in excel.

Black	82	70.69%
White	33	28.45%
Other	1	0.86%
Total	116	

GROUP 7: FORGERY: 934 records were pulled using the statute fields described in Appendix 9. The following results were achieved using the COUNTIF function in excel.

Black	529	56.64%
White	379	40.58%
Other	26	2.78%
Total	934	

GROUP 8: EMBEZZLEMENT: 4696 records were pulled using the statute fields described in Appendix 10. The following results were achieved using the COUNTIF function in excel.

Black	2367	50.40%
White	2228	47.44%
Other	101	2.15%
Total	4696	

GROUP 9: BIGAMY: 17 records were pulled using statute field 97-29-13. The following results were achieved using the COUNTIF function in excel.

Black	8	47%
White	9	53%
Total	17	

GROUP 10: ARSON: 1112 records were pulled using the statute fields described in Appendix 11. The following results were achieved using the COUNTIF function in excel.

Black	544	48.92%
-------	-----	--------

White	536	48.20%
Other	32	2.88%
Total	1112	

GROUP 11: SHOPLIFTING: 4233 records were pulled using statute field 97-23-93. The following results were achieved using the COUNTIF function in excel.

Black	3185	75.24%
White	951	22.47%
Other	97	2.29%
Total	4233	

[This area left intentionally blank]

Part Two

Methodology

Data Source

As with my analysis in Part One, an excel spreadsheet was made available to me by counsel. I understand the spreadsheet was obtained from counsel for the Harness plaintiffs through discovery, produced in July 2018. I further understand the spreadsheet includes data from AOC which includes criminal dispositions in Mississippi courts from 1994-2017, and the data was used in conjunction with Mr. Williams' May 22, 2018 report and a subsequent report of a Mr. Rothman produced by counsel for the Hopkins plaintiffs in August 2018. I further understand the spreadsheet does not contain data from Jefferson Davis County due to different formatting and the absence of certain data, and results from that county are therefore excluded from this analysis.

Selection of Offense and Disposition Categories

Specific criminal dispositions reflected on Appendix 1 of Mr. Williams' May 22, 2018 report have been used in the selection criteria. Those dispositions are reproduced as Appendix 1 to this report.

Specific offenses asserted as falling within the umbrella of disqualifying crimes were taken from the list reflected on Appendix 2 of Mr. Williams' May 22, 2018 report. Those offenses are reproduced as Appendix 2 to this report.

Filtering Stages

The first filter applied was on column U "Disposition" for the relevant 22 dispositions (See appendix 1). The results of the filter were 409,455 records of the original 690,976. The filtered results were saved to another spreadsheet. No records were found for the disposition "Expungement of Records".

The second filter applied was on column Y, "Name of Sentencing Offense" for the 99 Appendix 2 offense categories. The filter pulled all offenses "NOT EQUAL TO" Appendix 2. The results of the filter were 318,586 records.

Creation of a Unique Identifier for De-Duplication

The Excel Concatenate Formula was used to create a unique identifier. Column D "Last Name", Column E "First Name", and Column J "Date of Birth" were used to create a Column K "Unique". An example of the created Unique Identifier would be "COOPERPHIL01/01/2000". After the unique identifier is created, the "Remove Duplicates" filter is used on Column K "Unique". 158,719 duplicates were removed. 159,867 records remained for analysis.

Individuals without a Date of Birth listed

Any records with Column J, "Date of Birth" that were blank were removed from the spreadsheet. 6,811 records were removed. 153,056 records remained for analysis.

Part Two Results – Statute Groupings

Using the remaining 153,056 records, I filtered those records by statute and race fields, using the COUNTIF function in excel, and then further according to statute groupings provided by counsel, which I understand include felony offenses existing in 1890 which disqualified the offender from serving as a Mississippi elector under state law prior to 1890, but now are no longer disqualifying in present day. The analysis yielded the following results.

The analysis of the total number of the 153,056 records yielded the following results using the COUNTIF function in excel:

Black	87003	56.84%
White	60816	39.73%
Other	5237	3.42%
Total	153056	

The analysis further yielded the following results according to statute groupings provided by counsel:

GROUP 1: Abduction of Females: 1 record was pulled using statute 97-3-1.

Black	1	100%
-------	---	------

GROUP 2: Accessories: 1,802 records were pulled using statutes 97-1-3 and 97-1-5. The following results were achieved using the COUNTIF function in excel.

Black	1180	65.48%
White	576	31.96%
Other	46	2.55%
Total	1802	

GROUP 3: Adultery and Fornication: 16 records were pulled using statute 97-29-5.

Black	8	50.00%
White	6	37.50%
Other	2	12.50%
Total	16	

GROUP 4: Attempt to Commit Offense: 1,679 records were pulled using statute 97-1-7. The following results were achieved using the COUNTIF function in excel.

Black	962	57.30%
White	678	40.38%
Other	39	2.32%
Total	1679	

GROUP 5: Brands or Marks of Animals: 0 records were pulled using statutes 97-29-3 and 97-29-5.

GROUP 6: Burglary: 24,385 records were pulled using statute fields described in Appendix 12. The following results were achieved using the COUNTIF function in excel.

Black	14098	57.81%
White	9567	39.23%
Other	720	2.95%
Total	24385	

GROUP 7: Children: 8 records were pulled using statutes 97-5-1 and 97-5-5. The following results were achieved using the COUNTIF function in excel.

Black	3	37.50%
White	5	62.50%
Total	8	

GROUP 8: Dead Bodies: 1 record was pulled using statutes 97-29-19, 97-29-21, and 97-29-23. Only records were found for statute 97-29-19.

Black	1	100%
-------	---	------

GROUP 9: Escape: 644 records were pulled using statute fields described in Appendix 13. The following results were achieved using the COUNTIF function in excel.

Black	393	61.02%
White	236	36.65%
Other	15	2.33%
Total	644	

GROUP 10: Gaming: 0 records were pulled using statute 97-33-23.

GROUP 11: Highways/Railroads: 0 records were pulled using statute 97-25-23.

GROUP 12: Manslaughter: 1,381 records were pulled using statute fields described in Appendix 14. The following results were achieved using the COUNTIF function in excel.

Black	1032	74.73%
White	314	22.74%
Other	35	2.53%
Total	1381	

GROUP 13: Incest: 2 records were pulled using statutes 97-29-27 and 97-29-29. There were no records for statute 97-29-29. NOTE: Date of Birth field was blank for these two records.

White	2	100%
-------	---	------

GROUP 14: Kidnapping: 541 records were pulled using statute 97-3-53. The following results were achieved using the COUNTIF function in excel.

Black	384	70.98%
White	142	26.25%
Other	15	2.77%
Total	541	

GROUP 15: Levees: 0 records were pulled using statute 97-15-25.

GROUP 16: Mayhem: 54 records were pulled using statute 97-3-59. The following results were achieved using the COUNTIF function in excel.

Black	37	68.52%
White	15	27.78%
Other	2	3.70%
Total	54	

GROUP 17: Poisoning: 3 records were pulled using statutes 97-3-61 and 97-3-63. There were no records for statute 97-3-63.

Black	2	66.67%
White	1	33.33%
Total	3	

GROUP 18: Timber: 0 records were pulled using statute 97-7-65.

GROUP 19: Tramps: 0 records were pulled using statute 97-35-35.

GROUP 20: Treason: 2 records were pulled using statute 97-7-67.

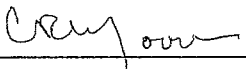

White	2	100%
-------	---	------

GROUP 21: Unnatural Intercourse: 11 records were pulled using statute 97-29-59. The following results were achieved using the COUNTIF function in excel.

Black	8	72.73%
White	3	27.27%
Total	11	

I reserve the right to supplement and/or amend my summary/analysis and this report based upon new information, testimony, or documents of which I learn or obtain after submission of this report.
