Dear Mr. Yi,

I have enclosed copies of the letters and responses that the public information officer sent in response to your letters.

The Montgomery County Board of Elections is an agency of the Maryland State Board of Elections. The Local Board is required by law to use the State Board of Elections voting system that is certified by federal and state laws and regulations.

The Maryland State Board of Elections is the agency responsible for the selection and implementation of the voting system. The Diebold/Premier Voting System used in the election since 2002 through 2014 was selected in accordance to Federal and State laws, regulation and certification requirements. The State of Maryland purchased a paper based voting system on December 17, 2014. This system will be used in the 2016 Presidential Election.

Questions related to the old or new voting system should be directed to the State Board of Elections at 1-800.222-VOTE (8683).

Thank you for your interest in the voting system.

Sincerely,

Margaret A. Jurgensen
Election Director

Dear Mr. Yi,

I am in receipt of your November 6 correspondence in which you question the voting system used to cast your ballot in the Gubernatorial General Election.

The Montgomery County Board of Elections utilizes a Diebold Touchscreen voting system which was purchased by the Maryland State Board of Elections for use throughout the State of Maryland. Voters are able to utilize the touchscreen to select the candidates they want to vote for and then review their ballot using the summary screen. Once the voter is satisfied with the selections indicated on the summary screen, they select "Cast Ballot" and their vote is transferred to a memory card within the voting unit. At the end of Election Day, those memory cards are uploaded by modem to the Maryland State server and the election results are tabulated.

The selection of voting equipment and the design of the ballot are handled by the Maryland State Board of Elections. In 2016, Maryland will be implementing a new, paper based, voting system which will allow the voter to see a paper copy of their ballot prior to scanning it. Information on what system will be purchased is not available at this time. For additional questions related to the voting system used in Maryland, you should contact the Maryland State Board of Elections at 1-800-222-VOTE (8683).

Thank you for taking the time to bring your concerns to our attention.

Sincerely,

Marjorie M. Roher

Re: Voting machine

TDC 16 CV 0662

Exhibit C

Dear Whom may it concern;

County voting machine at Kennedy High School; at
Randolph Road Silver Spring MD does not
provide paper Ballot; For Voter to confirm/affirm
what voter voted; ~~the~~ How vote was ~~cast~~ cast;
unlike prior to going digital; with paper ~~Ballot~~ Ballot;

Ballot; Could you explain why there are no paper
~~Ballot~~ to Ballot for Voter to confirm/affirm ~~to~~ How
vote was ~~it~~ achieved; and what ~~is~~ Ballot was cast?

also why ~~it is~~ isn't there check mark box
for none of above; since none of above is also
a category; By state's right to categorize;

Please & Thank you

Dear Madam

Today March 1st 2016, I spoke to you about new voting machine; and ballot is marked and scanned and drops to collection box; never to be seen again by voter; no record is provided; i.e. receipt;

If there are no records provided to voter how person voted then when there is dispute; recount; and ballot boxes are stuffed, and digital records are corrupted;

Voters could not present their own records to have 3rd party run recount; thereby violation of 'to vote' in 15th amendment;

Please cease and desist implementing planned voting machine;

Respond at above address or e mail at agentdaivd10@gmail.com; prior to 3/4/16; please and thank you

Date: 3/1/2016

Chong Su Yi
