Hi Erica,

For some reason my email was blocked getting to Karen. Could you help me get the request to her? The full election cycle lists will be important for getting things straight going into June, and I've been asked to get the early vote, election day, and COVID-19 procedures info in writing. Let me know if I should send again, to another email, or something else. Thanks!

Good morning Karen and Erica,

Thanks for being so wonderful in responding to our data requests--Genesee Co. certainly shines, especially compared to some other BOEs. In order to make sure we've got a strong foundation going into June, I'm requesting the following:

- A list of ALL voters who have applied for an absentee ballot in the NY-27 special election since January 1 to today's date
- A list of ALL voters who have been sent a ballot to vote in the NY-27 special election
- A list of ALL voters who have returned their ballot for the NY-27 special election

If you could make these 3 separate lists, that would be wonderful. With these lists, please include County ID, name, address, DOB, and phone numbers.

In addition, we are requesting the following information:

- A list of locations, along with dates and associated times, for early voting
- A list of finalized locations for voting on election day

- A list or description of procedures that voters will need to follow to vote in-person (e.g., mask, gloves, sanitation, distance, etc.)

Thank you again for all your help so far. Going into June we'll be needing daily updates for the three lists above to keep our campaign up to speed and the public informed. We've been doing everything possible to educate on absentee voting, walk voters through the application process, and generally calm anxieties over the changes this election cycle. I know you've been hard at work keeping this election on the rails, and we're so grateful for everything you continue to do to bolster the democratic process in this difficult time. Please let me know if you have questions or need any clarification on the above.
