American Cancer Society: Extension to Settlement Agreement

In 2011 the American Cancer Society (ACS) and the American Council of the Blind reached a comprehensive agreement regarding ACS information to members of the public with visual impairments. ACS agreed at that time that its website would satisfy WCAG 2.0 Level AA and that it would provide certain ACS information in Braille, Audio, Large Print and electronic formats. In early 2012 the parties agreed to extend the agreement and provide additional materials in Braille and Large Print. The Agreement extension is below.
