Letter of Agreement  
to  
Changes in the Revised Order Approving Plan

Below are specific changes to the Revised Order approving the plan between the School Board of Indian River County and the National Association for the Advancement of Colored People, Indian River County Branch, which was originally ordered into effect by the Honorable Judge C. Clyde Atkins on the 23rd of May, 1994.

Section I. Facilities Reorganization

- Vero Beach Junior High School will become the ninth grade center for Vero Beach High School in order to prevent over-crowding on the high school campus.
- There will only be three middle schools in Indian River County in order to serve all students in grades six through eight: Sebastian, Gifford, and the new south county middle schools.

These are the only changes for Section I.

Section II. Minority Teacher Ratio

No changes to this Section.

Section III. Minority Teacher Recruitment/Employment

No changes to this Section.

Section IV. Minority Faculty/Staff Assignment by School

No changes to this Section.

Section V. Future Schools in the Gifford Community

- The building renovation program planned for Gifford Middle Seven was originally intended to be approximately five million dollars. As of this date, these changes and renovations have exceeded seven million dollars. In addition, now that the facility plan is for three middle schools to serve the district instead of four, approximately two million dollars in classroom additions will still need to be added to the Gifford campus within the next two years.

These are the only changes for Section V.

Section VI. Minority Student Achievement/Resource Allocation

No changes to this Section.

Section VII. Student Assignment

No changes to this Section.

Section VIII. Plan Supervision

No changes to this Section.

Section IX. Transportation

No changes to this Section.

Section X. Extracurricular

No changes to this Section.

Section XI. Changes and Disputes

No changes to this Section.

However, it is in the spirit of this section that this written Letter of Agreement is drafted, in order to detail changes to the original "Revised Order Approving Plan." This agreement is entered into in an attempt to continue working together to serve our changing student and adult populations.
