Of this total cost of construction, the plaintiff has paid \$284,950.00 to the Board under a grant applied for by the Board and approved by the Commissioner of Education pursuant to the provisions of Chapter 19 of Title 20, United States Code.

38. In connection with each of its applications for a grant under Chapter 19 of Title 20, United States Code, as referred to in paragraphs 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35 and 37, the Board gave written assurance, as required by 20 U.S.C. 636, that the school facilities of the Board "will be available to the children for whose education contributions are provided ... on the same terms, in accordance with the laws of the state in which applicant is situated, as they are available to other children in applicant's school district."

39. The military personnel and civilian employees of the plaintiff stationed or employed at Maxwell Air Force Base, Gunter Air Force Base, the Veterans Administration Hospital and other installations of the plaintiff, in Montgomery County, include persons of both the white and Negro races. The school-age dependents of such personnel and employees include children of both the white and Negro races.

40. It is the policy and practice of the defendants, in operating the public schools under their jurisdiction, to segregate Negro students in separate schools maintained and operated solely for students who are of the Negro race.

41. The defendants have operated and are presently operating Bear, Bellinger Hill, Capitol Heights, Catoma, Chilton, Chisholm, Dalraida, Davis, Flowers, Forest Avenue, Goode Street, Harrison, Highland Avenue, Highland Gardens, Johnson, Ledbetter, MacMillan, Maxwell, Morningview, Pine Level, Spastic Children's School and Rives elementary schools; Bellingrath, Cloverdale, Pike Road and Pintlala elementary-junior high schools; Baldwin, Capitol Heights, Floyd and Goodwyn junior high schools; Lanier and Lee senior high schools and Montgomery County elementary-high school for the education of white children exclusively. The defendants have operated and are presently operating Billingslea, Booker Washington, Carver, Daisy Lawrence, Fewes, Hale, Lomax, McDavid, McIntyre, McLean, Madison Park and Paterson elementary schools; Loveless elementary-junior high school; Booker Washington, Carver and Houston Hills junior high schools; Booker Washington and Carver senior high schools; Alabama State College Laboratory, Dunbar and Georgia Washington elementary-senior high schools, and the 27 small rural schools referred to in paragraph 13 for the education of Negro children exclusively.

42. By reason of the policy and practice of the defendants to assign students to schools according to their race, all Negro school-age dependents of military personnel and civilian employees of the plaintiff stationed or employed at Maxwell Air Force Base, Gunter Air Force Base, the Veterans Administration Hospital and other installations of the plaintiff and residing within Montgomery County, are compelled to attend schools operated exclusively for members of the Negro race and are not permitted to attend schools available to white children similarly situated.

43. Pursuant to their policy and practice of assigning students to schools according to their race, the defendants assign Negro school-age dependents of military personnel and civilian employees of the plaintiff, stationed or employed at Maxwell Air Force Base, Gunter Air Force Base, the Veterans Administration Hospital and other installations of the plaintiff within Montgomery County, to schools further from their residences than other schools operated by the defendants for the education of white children exclusively.

44. Approximately 7,015 children of military personnel and civilians stationed or employed at Maxwell Air Force Base, Gunter Air Force Base, the Veterans Administration Hospital and other installations operated by the plaintiff, attended the public

schools operated by the Board during the 1961-62 school year and the majority of them will be returning for the 1962-63 school year. Of these children, approximately 1,078 are Negroes.

45. The defendants have failed and are now failing to make the public school facilities under their jurisdiction available to Negro dependents of military personnel and civilian employees of the plaintiff upon the same terms as such facilities are available to white children.

46. The acts and conduct of the defendants herein alleged violate the Fourteenth Amendment to the Constitution.

47. The defendants will, unless restrained by order of this Court, continue unconstitutionally to segregate dependents of military personnel and civilian employees of the plaintiff according to race in the public schools operated by the defendants, thereby causing irreparable injury to the plaintiff, consisting of impairment of the service and morale of its military and civilian personnel and the separation of servicemen from their families when the servicemen send their children to schools outside the area of the military installation at which they are stationed in order to avoid subjecting the children to racial discrimination in the children's education.

48. The plaintiff has no adequate remedy at law.

WHEREFORE, plaintiff prays that this Court enter an order enjoining the defendants, their successors in office, agents, employees, and all persons in active concert or participation with them, from segregating or discriminating against, among or between, upon the basis of their race or color, any dependents of military personnel or civilian employees of the plaintiff in the operation of public schools, together with such additional relief as may be appropriate.
