To whom it may concern:

In response to "Reports to the Court" Section III, Item 5

The transportation system for the Evangeline Parish School district is desegregated to the extent that white and black students are transported daily on the same buses due to the fact that routes have been established by geographic location, capacity of the bus, length of the bus, residential location factors, safety and schools served.

New routes have been established for the purpose of majority to minority transfers. The Evangeline Parish School Board has four majority to minority buses in place at this time.

Court Report (6)

To my knowledge, all facilities, such as gymnasiums, auditoriums and cafeterias are being operated on a desegregated basis. I am not aware of race ever being a factor in the operation/use of such facilities.
