SUPERINTENDENT APPARENTLY LIED ABOUT BUDGET CRUNCH

Craig Cook Is Given A Big Pay Raise

WALTER MARKS AND HIS TEAM OF WHITE SUPREMACISTS AND OBSEQUIOUS BLACKS HAVE THEIR PRIORITIES SKEWED

On Monday, August 24, 1992, The Board of Education acting on the recommendation of the Superintendent gave a hefty salary increase of approximately \$8,000 to Craig Cook, the unenlightened white male retired military man who commutes to Kansas City every day from his home in Lansing, Kansas. This Superintendent has his priorities skewed! How can he reconcile the elimination of special education classroom aides (mostly African-Americans) who worked directly with children who have been diagnosed as having behavior disorders (mostly African-Americans) with finding money to grant large pay raises to already over paid white folks (Cook now earns \$75,000)? In these austere times, if the Superintendent were genuinely committed to the educational and psychological development of our youth every available dollar would be used to serve the need of our children, not fatten the pockets of insensitive white MERCENARIES. This is what happens when you have a Superintendent who is not committed to the well-being of African-American children. Any man who gives preferential treatment to whites while ignoring the needs of Black children should not be allowed to lead a school district with a student population that is 70% Black!
